Truman Says Strike Call Was Unexpected

Serious New Threat To Pusan By Reds Has Developed

Major Offensive May be Imminent And Keeps U. S. Forces on Alert

By the Associated Press

Communist forces posed a serious new threat to Pusan in the south today. Pusan is the main U.S. supply base for South Korea.

On the north central front Allied troops inched ahead into positions given up by withdrawing Red forces north of Taegu.

A division of Red Korean troops in three heavily armed columns of men and machines began rolling eastward Thursday night on the Korean south coast against positions of the U. S. 25th Infantry division. Intelligence officers said a major offensive may be imminent there.

With American forces on the alert, U. S. pilots watched the Reds marching in clusters of eight or 10 men at 50-foot intervals to minimize the danger of air attack. Fighters, bombers and jet planes hammered at the three columns immediately after the movement was reported. Two B-26 bombers smashed at concentrations which apparently were marshalled at Chinju, the Reds' southern anchor 55 miles west of Pusan.

Pressure In North Eased

There was danger in the north, too, although pressure eased. For five days the Americans and South Koreans beat back flanking attacks which jabbed and probed in an apparent search for a soft spot to launch a 50,000-man attack on Taegu, main United Nations forward base.

The sudden shifts of North Korean forces in the Taegu sector puzzled Allied officers. Units of the main North Korean forces were reported drifting eastward along the defense line of American and South Korean troops. Enemy pressure lessened along a line now 13 miles north of Taegu.

With the immediate threat to the city apparently somewhat lessened, U. N. forces tightened their lines. South Koreans, aided by U. S. fighter-bombers, captured "The Citadel," highest peak on the U. N. right flank along the rocky corridor leading to Taegu. It had been a Red observation post.

There was an air of cautious optimism at the front. But the Reds still were massed for a possible lunge. Some U. S. officers expressed belief the Reds were seeking a flanking route for the Taegu drive. Others said the Communists were pulling back to regroup. They appeared to be quitting the Waegwan area, 12 miles northwest of Taegu, and this led to speculation that they were reinforcing units to the north which suffered heavy losses. In one 72-hour period 3,500 casualties were inflicted on the Communists in the bloody mountain battlefield, headquarters said.

Gen. J. Lawton Collins, U. S. Army chief of staff, visited the northwest front above Taegu Wednesday, leaving only 15 minutes before a hot enemy action blazed there. Adm. Forrest P. Sherman, who flew to Korea in another plane, visited Eighth Army headquarters.

The army chief expressed satisfaction with the way the war was going and said he found morale high among Americans and South Koreans. Sherman, on his return to Tokyo, said he believed the Russians have been supplying the North Koreans ever since the outbreak of fighting, adding that "Nobody believes the North Koreans are manufacturing their own war materiel."

Hammered From Coast

Sherman told the ship's company on a U. S. 7th Fleet aircraft carrier that U. S. warships hammering the North Koreans on the coasts are only the advance guard "until more help can come."

U. S. Marine airmen said they killed 300 North Korean soldiers in a rocket and strafing attack on troop concentrations north of Taegu. F-80 jet fighters concentrated on Red troops southwest of Masan on the southern front. Fighter-bombers ranged the front lines.

Korean Situation At a Glance

TAEGU FRONT: Allies inch into positions left by Reds, as Communist movements puzzle U.S. officers. Reds appear to be drifting eastward, possibly seeking softer spot for 50,000-man drive on Taegu, after flanking attacks were beaten off for five days. Naktong bridgehead southwest of Taegu still contained by U.S. 24th Division.

SOUTHERN FRONT: Americans win dominating ridge guarding approaches to Pusan. Red advance units pour small arms and mortar fire on U.S. positions, while other Reds mass for possible offensive.

EASTERN FRONT: South Korean units edge northward against stiffening Red resistance.

AIR AND SEA: B-29s hit chemical plant at Konan, North Korea, with 290 thousand-pound bombs. Superforts blast rail lines leading to fronts. Marine airmen report killing 300 North Koreans in attacks on troop concentrations near Taegu. F-80 jets hit Reds on southern front and fighter-bombers range front lines. U.S. destroyer for second time shells Chongji on North Korean east coast.

WASHINGTON: House passage scheduled tomorrow for $16,000,000,000 emergency money bill to gird for Korea and help arm allies against communism.

Guards Near End of Period Of Training

Field Artillery Had Active Work At Fort Wood

FORT LEONARD WOOD, Aug. 24.—The caissons no longer roll in the 129th Field Artillery battalion, but the spirit of a more rugged day is stronger than ever.

With a military history going back to 1812 and a big reputation to uphold, the battalion with units in Mexico, St. Louis, Columbia, Sedalia and Boonville is nearing the end of its most successful summer training session with the 35th Division.

One would hardly need more proof than the way they sing the artillery caisson song, even though they have long since discarded their horses.

Try for Top Mark

The 128th was the only battalion size unit in Missouri to get a superior rating from army inspectors in camp a year ago. This year, however, the rating scale is on a Battery level, but all the batteries are trying their best to come up with another top mark.

It already has established one record which is the envy of every other unit in the Division. It is a 100 percent attendance record for camp.

For a while it looked as if the

Report Unconfirmed

NEW DELHI, India, Aug. 24—(AP)—The all-India radio, which has been monitoring and recording Peiping broadcasts of Communist China regularly, said today it was unable to confirm a report that Peiping broadcast an announcement of a Communist invasion of Tibet. The Indian foreign ministry, likewise, said it had no such report.

Reds Plan To Take Formosa

Demand to UN Any Forces of U. S. There be Withdrawn

TOKYO, Friday, Aug. 25.—(AP)—The Chinese Communists today demanded that the United Nations order withdrawal of all American forces from Formosa and announced the Red intention to "liberate" that island from the Nationalists.

The announcement by the Peiping radio was heard by the Associated Press in Tokyo. It said the demand for American withdrawal was sent by Chinese Communist Foreign Minister Chou En-Lai to the U. N. Security Council and Secretary General Trygve Lie.

The United States has no armed forces on Formosa, last major redoubt of the Chinese Nationalists, but the U. S. seventh fleet is patrolling the Formosa Strait to prevent an often-threatened Red attack.

"The people of China cannot tolerate the action of armed aggression by the United States government on the terrtiory of China," the radio quoted Chou's message to the U. N.

It went on to cite the presence of the seventh fleet and of some American air force contingents on Formosa.

Chou charged that the American presence was "an open encroachment on the territory of the People's Republic of China" (the official name of the Red regime).

He asserted it was direct armed aggression and was a total violation of the U. N. charter.

Chou demanded that the security council condemn the U. S. government "for its criminal act . . . and take immediate measures to bring about the complete withdrawal of all the United States invading forces from Taiwan (Formosa) and from other territories belonging to China."

Doubt Conflict Bring World War

NEW DELHI, India, Aug. 22—(AP)—Prime Minister Nehru told a press conference today he did not believe the Korean conflict would flare into a world war in the immediate future.

At the outset of the Korean conflict, Nehru had said the chances of a world war were 50-50.

Answering questions from left-wing journalists on the bombing of North Koreans, Nehru said his government was concerned for two reasons:

1. Innocent people were being killed and unnecessary damage done.

2. It was likely to create more problems in the future.

Killed 300 North Korean Reds

TOKYO, Aug. 24 —(AP)— U.S. Marine airmen said today they killed 300 North Korean Reds in a rocket and strafing attack on heavy troop concentrations facing Taegu.

The enemy force, caught eight miles west of Taegu at Songju, was one of 16 North Korea troop concentrations riddled by carrier-borne Marine pilots, the Navy said in a Thursday night release.

F-80 jets Thursday concentrated on troop concentrations southwest of Masan on the southern front.

Tomato Day By Kiwanians

Henry Salveter Has The Nicest Assortment

Sedalia Kiwanians held their annual Tomato Festival at the club meeting held in Bothwell hotel Thursday noon.

R. C. Hemphill, chairman of the agriculture committee, had charge of the program and selected Kiwanian Al Covey, Lamar, Mo., and Bert Hathaway as judges of the tomatoes grown by club members and brought to the meeting for display.

First award for the nicest group of tomatoes went to Henry Salveter; second, largest tomato, R. C. Hemphill; third, smallest ripe tomato, E. H. McLaughlin; fourth, smallest green tomato, about the size of a pea and still on the vine, to T. H. Yount, who also won honorable mention for the yellowest tomatoes; fifth, oddest shape tomato, Clarence Evans; sixth, rarest variety, a tissue tomato, to Paul Hedderich and Howard Roberts.

President Herbert Schrankler announced that the monthly directors meeting with committee chairmen would be held Friday noon, September 1 in Bothwell hotel.

British and U. S. Troops Ready

TRIESTE, Aug. 24 —(AP)— Ten thousand British and American troops are ready here if communism's next armed blow falls on neighboring Yugoslavia.

Garrisoning this Allied guarded free territory on the Yugoslav-Italian border, they are "combat ready" in training and equipment. But they sit on a spot too tight to hold—and backed by an Italian army probably still too weak to help.

Their chief bulwark is the opinion—held by American military observers here and in Rome—that the Yugoslav army would be a tough nut for other Communist states to crack.

Probably no one outside the Kremlin knows if such an invasion blow is scheduled for Yugoslav Marshal Tito's tough little anti-Stalin Communist state.

But if such a Red move should come, most observers think the Anglo-American forces here would be reinforced quickly and ordered into the fight. U.S. action in Korea is an example.

Well-qualified opinion here holds that Tito's troops are equal to or better than anything that any one or two of the surrounding Soviet satellite powers could muster for an attack.

But hit by them all—Hungary, Romania, Bulgaria, Albania—and by strong Soviet support, Yugoslavia would need help.

Approve Billions Outlay

Committee of House For it Carrying Total of $16,771,084,479

WASHINGTON, Aug. 24—(AP)—A Senate-House committee today cut Marshall Plan and "Point Four" funds and approved a $62,500,000 loan to Spain. In each instance the committee defied President Truman's wishes.

Acting swiftly on the $34,000,000,000 single-package appropriations bill, the conference committee lopped $200,000,000 off economic cooperation administration (ECA) funds and cut back to $15,000,000 the $26,900,000 previously voted by the Senate for Point Four technical aid to the world's under developed areas.

The group left intact, however, the $1,678,000,000 approved by the Senate for foreign military help.

By William F. Arbogast

WASHINGTON, Aug. 24 —(AP)— A $16,771,084,479 bill providing cash for 5,333 new war planes and other equipment for America's growing military machine was approved today by the House Appropriations committee.

An emergency measure growing out of the war in Korea, it not only finances expansion of United States armed might but also carries $4,000,000,000 to help arm friendly nations.

In sending the bill to the House floor, the committee wrote this sharp criticism of the defense program:

"Events of recent weeks have made it crystal clear that the military planning and thinking in key positions is not as clear and accurate as could be desired, but it is not the purpose of the committee at this time to criticize past errors of judgment."

The bill's total is $81,400,119 less than the President requested

Cut of $200,000,000 On Bill For ECA

WASHINGTON, Aug. 24—(AP)—Senator Bridges (R.-N.H.) said today a Senate-House conference committee had agreed to cut $200,000,000 off this year's appropriations for the Economic Cooperation Administration.

The committee also was reported near agreement on reducing a Senate-approved proposed $100,000,000 loan to Spain to $62,500,000.

The ECA slash, which must be approved by both houses of Congress before it becomes effective, would reduce new money for foreign economic aid from the Senate-approved figure of $2,450,000,000 to $2,250,000,000.

President Truman told his news conference today, in response to a question, that he still does not like the Franco loan.

Two Sets of Twins Sign Up for the Army

ST. LOUIS, Aug. 24.—(AP)—Two sets of 17-year-old twins signed up yesterday for duty with the armed forces.

Nyle H. and Gayle H. Smith of Taylorville, Ill., joined the air force.

Donald W. and George Nelson Launius of Carbondale, Ill., joined the army.

They were to be sworn in today at the Old Custom House here.

Today Big Thursday At Fair

C. of C. And Pettis County Day Has Crowd Expected To Top Record

Today is the traditional "Big Thursday" at the State Fair and it is believed that the day and night attendance will top the Thursday attendance figures of past years.

In addition to being "Sedalia, Chamber of Commerce and Pettis County Day" the fair is also including "Springfield Day" among the list of events.

Many Sedalia business establishments closed at 12:00 o'clock today in order to give their employees an opportunity to attend the Fair.

Traffic at the seven entrance gates throughout the day was heavy and its continuance into late afternoon and evening is expected by the Missouri State Highway Patrol.

Biggest Wednesday

Wednesday was turned into the biggest in the fair's history as the official figures listed 53,729 attending during the day. This topped last year's record crowd of 46,721 by 7,008.

With Kansas City Group

The city manager, Chamber of Commerce representatives, members of the police board of commissioners and the police chief and an assistant of Kansas City attended the Missouri State fair in Sedalia Wednesday, Kansas City day at the event.

Among them were L. P. Cookingham, city manager; Albert R. Waters, president, and George W. Catts, executive manager, from the Chamber of Commerce; Cliff J. Kaney, president of the Kansas City Live Stock exchange; Henry W. Johnson, police chief, and Jack K. Ellis, administrative assistant to Johnson, and Albert F. Hillix, president, and Elmo B. Hunter, Kearney Wornall and George Fiske of the police board.

John T. Stinson, Jr., at Fair

John T. Stinson, Jr., St. Louis, former Sedalian, is a visitor at the Missouri State Fair. Mr. Stinson arrived Tuesday and will leave this evening for his home.

He is the son of Mr. and Mrs. John T. Stinson, St. Louis, and his father for several years was secretary of the Missouri State Fair thirty years ago, and later with the agriculture department of the Missouri Pacific railroad.

Mr. Stinson is in the auctioneer business.

Soviets Increase Training Camps

By Brack Curry

FRANKFURT, Germany, Aug. 24—(AP)—Allied officials reported today that training camps for Russia's elite East German army have been increased from 11 to 50 in less than six months.

This vast expansion indicates the Russians intend to build a huge new "Red Wehrmacht" around this communist armed force, the officials declared.

This East German force of 50,000 men has been trained as a cadre for a larger German army taking orders from Russia, they said. The official gave this assessment of developments:

The dark-uniformed, jack booted force could easily be expanded to 150,000 men, perhaps in a matter of weeks, with the increase in training facilities.

Already the 50,000-man East German army gives Soviet Russia a combined Russian-German combat force of 320,000 men facing the west in eastern Germany.

New equipment, including late model tanks and jet planes, are flowing to the Red army in East Germany. Some of it may be intended for the East German army.

Rail Walkout Nationwide Set For Monday

Conductors And Trainmen Send Orders Out to 30000 Members

WASHINGTON, Aug. 24—(AP)— President Truman declared today the nationwide railroad strike was called within an hour after assurances to him that there would be no strike.

He made it plain to a news conference that he felt he had not been dealt with fairly.

As to what he intends to do, he said he would have a statement later. He refused to indicate whether he plans seizure. The unions have been urging this step for weeks.

Mr. Truman said the strike was sudden and unexpected. He said assurances came to him from both the unions and the management that there would be no walkout. These assurances, he said, were given within an hour before the strike was called by the trainmen and conductors.

They set the walkout for 6 a. m. (local standard time) next Monday.

A reporter asked Mr. Truman who gave him the assurance there would be no strike.

The railroad unions and the railroad managers — both, the President said emphatically. He said they had given him that assurance frequently within the last two or three days, and within an hour before the strike was called.

A reporter asked if he considered the tactics a "double cross."

Mr. Truman told the reporter not to put words in his mouth.

Is Set in Advance

A union spokesman had this comment on President Truman's news conference remarks:

"We would ask that it be noted the strike has been set far enough in advance to provide opportunity to clear this thing up, if the President cared to call in the presidents of these roads in place of the (management) committee which has been stalling all these months.

"Secondly, if the President decides he will seize the railroads, the two presidents of the unions are remaining in Washington to cooperate in any way possible."

Two big rail unions — the Brotherhood of Railroad Trainmen and Order of Railway Conductors—gave their all-out strike orders to their 300,000 members last night after a new deadlock developed in White House peace talks with the carriers.

The nationwide strike call against 131 rail lines was unexpected. The union leaders only Tuesday night had given everyone to understand they would not expand five-day "token" walkouts presently in progress at five key rail centers.

However, the dispute over the wages and working hours has dragged out over a period of a year and a half — and constantly been growing more ominous.

Procedure Complex

Under the railway labor act, which sets up a complex procedure for handling of rail disputes, the unions have been free to strike since July 15.

The deadline for the nationwide walkout is 6 a. m., standard time Monday according to the clocks in each locality. A strike of all railroads in Canada is now in its fourth day, so if the threatened walkout develops in this country, all rail transportation in north America will be at a standstill.

The unions indicated hopes that their full-scale strike threat might force railroad owners, in seeking to avoid seizure, to capitulate to union demands. On at least three prior occasions the unions asked President Truman for seizure.

The carriers didn't seem opposed to the seizure idea. At least, A. E. Stoddard, president of the Union Pacific railroad, said in Seattle last night that seizure should be ordered immediately to prevent any interruption in military supply shipments to Korea.

"We are moving material which

Drives 10 Thirty Miles After Wreck

LITTLE ROCK, Aug. 24—(AP)—Many a driver has climbed out of his vehicle to tell off another driver after an accident.

Guy Wright of Lexington, Mo., got out last night—but from there on the story's different.

Wright saw, police reported, that the automobile which struck his truck from behind was loaded with children and that it was damaged so badly that it couldn't be driven away.

So he piled Mr. and Mrs. Jim Tarvin and their eight children into his truck and drove them to their home at Benton, 30 miles from here and a considerable detour for Wright, who was headed for Pine Bluff, 60 miles away on another highway.

Son of Senator Donnell at Fair

John L. Donnell, son of Senator Forrest Donnell, and a sister of the senator's wife, Miss Elizabeth Hays, of St. Louis, were in Sedalia Wednesday and today attending the Missouri State fair and were at Republican headquarters at the fair grounds.

John L. Donnell is a St. Louis attorney and his visit here is in the interest of his father's campaign for re-election to the U.S. Senate. He stated Senator Donnell was very anxious to be at the fair but was detained in Washington to important legislative proposals before Congress.

Primary Vote On Congress

All Incumbents in Missouri Were Renominated

JEFFERSON CITY, Aug. 24—(AP)—All 13 of Missouri's incumbent United States Representatives won renomination easily in the August 1 primary, the official canvass showed today.

There wasn't a single close race for the congressional candidates. Seven of the incumbent won renomination without opposition. And one — Rep. Paul C. Jones, Kennett Democrat—is just as good as elected. He drew no opposition in either party in the heavily Democratic tenth district of southeastern Missouri.

The official canvass made no significant changes in unofficial election night returns tabulated by the Associated Press.

Here are the vote totals by districts in the contested races:

First— Rep. Clare MaGee of Unionville won Democratic renomination without opposition. Republican—Former Rep. S. W. (Wat) Arnold of Kirksville 7,669, Virgil Weaver of Kohoka 2,418.

Second Democrat—Rep. Morgan Moulder of Camdenton 25,426, Daniel C. Rogers of Fayette 8,184.

No Mention of Tibet Invasion

LONDON, Aug. 24—(AP)—Teleradio, which monitors the Communist China radio, said today there has been no mention in the past 48 nours of any invasion of Tibet by the Chinese Reds.

There were reports of such an invasion in the United States today.

The Soviet monitor, which distributes reports by Moscow radio and the official Soviet news agency Tass, also said it had received no such information.

The U. S. state department in Washington said it had no confirmation of the invasion reports. U. S. officials added that they wouldn't be surprised at such action because Red China leaders have been threatening for some months to take over the isolated country situated between the Himalayan and Kunlun mountains west of China and north of India.

Thomas P. Whitney, Associated Press staff member in Moscow, said by telephone to London he had heard nothing to substantiate the invasion report.

Science Fiction Writers Meet to Consider Future

MEETING WILL COME TO DISORDER, or, A Science Fiction Writers Convention As Imagined By The Public. Actually, however, the scribes who dish up portions of an incredible, astounding amazing future are fairly normal people.

By HARRY WARNER, JR.
NEA Special Correspondent

PORTLAND, Ore. — (NEA) — Confident that the first trip to Mars isn't far away, hundreds of the men and women who read write and edit science fiction stories will meet here for their annual science fiction convention.

Science fiction fans once claimed that they had to have the meetings to keep from feeling too lonely in a world where most persons scoffed at tales of the future and science. But suddenly the situation is reversed. About 50 science fiction books were published last year, the number of pulp magazines in the field nearly doubled, and the slick magazines suddenly got interested in this kind of story.

September's three-day convention will be devoted to talks on the future of mankind, movies related to the science fiction field, discussions of policies that the fans want to pursue, and the traditional auction of their favorite literature.

* * *

Veteran fans think that science fiction stories give a real preview of tomorrow. They point with pride to tales of atomic power which appeared regularly for 10 years before Hiroshima. They claim that every other 20th Century invention has been foreseen by the great science fiction writers like Jules Verne, H. G. Wells and others.

Today's crop of science fiction writers and creditors know more about real science than those pioneers, and may turn out to be more consistent prophets. John W. Campbell, Jr., who edits Astounding Science Fiction, is a recognized authority on the atom and author of a book dealing with nuclear physics. Dr. Thomas S. Gardner, fan and author for two decades, has gained national prominence as a chemist who is looking into the chances of increasing the life span of mankind.

* * *

Principal beef of science fiction fans is against the mental picture of them that the American public has formed. They insist that they don't go around trying to build disintegrators and they don't pretend to know whether flying saucers come from another planet. Past conventions, in fact, have been rather sedate affairs.

Although it's just beginning to attract wider attention, science fiction is one of the oldest forms of literature. The Greeks liked fanciful accounts about the first trip to the moon, with a big set of wings usually adopted for transportation. Conservative estimates claim that 5000 books published in the last 100 years can be ranked as science fiction or closely related to this field.

Fans may resume at Portland this year their oldest argument—is science fiction of any value, aside from serving as entertainment?

Some of the leading figures insist that it's nothing but another kind of fiction. Their opponents claim that the stories are a sugar-coated way of gaining knowledge of basic science, and a stimulus to the imagination of technicians.

Guards Still Get Work Out

FORT LEONARD WOOD, Mo., Aug. 24—(AP)— The brass of the National Guard's 35th division doesn't spend all its time in swivel chairs.

Last night high ranking officers who direct the summer field training here were on the field in an all-night command problem. Col. William C. Branton, Kansas City, chief of staff, and his staff sections participated in a problem that included one move of a division command post during the night.

An hour-long demonstration of fire power of infantry-artillery teams preceded the night's program.

Lt. Col. William L. Hunker, Jr., commander of the 138th infantry regiment of St. Louis, said the fire power demonstration "will be the largest concentration of fire power ever laid down by any 35th division until in peacetime field training."

One battalion of the 138th, teamed with the 128th field artillery battalion of Mexico, Columbia, Sedalia, Boonville and St. Louis, will conduct the demonstration. It will end with a barrage from all weapons, from carbines to 105mm guns.

As the second week of the division's training reached the mid point, most of the major units were in the field on tactical problems, the most rugged part of the training.

Members of the National Guard's 35th division, in training here, are apparently a peaceful lot.

Maj. Calvin L. Jones, Hannibal, Mo., division provost marshal, announced today that military police patrols in surrounding communities have not found it necessary to arrest a single 35th division soldier.

Popcorn may be grown on any soil that will grow good field corn.

Churchill's Son Injured In Korea

TOKYO, Thursday, Aug. 23—(AP)—Randolph Churchill, son of the former British Prime Minister, and Frank Emery, an American newsman, were wounded by mortar fire in Korea, a public information officer announced today.

Churchill, a correspondent, was hit in the right leg.

Emery, correspondent for International News Service, was hit three places—the left thigh, side and leg.

The Army said neither Churchill nor Emery was wounded seriously both were able to walk.

Guards Near End of Period Of Training

(Continued From Page 1)

battalion might miss it by one man. He is Pvt. Bob Morris of Battery B Columbia. He was in Seattle, Wash., when his battery was ready to leave. Morris was low on funds to make a quick trip back so his parents, Mr. and Mrs. R. H. Morris, wired him money to fly back by commercial airliner. He made it in time to give the 128th the perfect record.

Ask the battalion commander, Lieut. Col. H. L. Beynon of Mexico about the training session and he'll tell you it is "the best ever."

"The men, both new and old, are down to hard work to learn all they can," said Colonel Beynon. "All are very serious about training this summer, more so than at any other previous camp."

Before the field training began Colonel Beynon explained the seriousness of the situation to the officers, who passed the word down.

"I told them that this may be their last real chance to learn under ideal conditions," he said. "On how well your men learn their jobs may depend the lives of many infantrymen and friends in your own batteries."

As Colonel Beynon was talking he was seated at the battalion command post on a hill watching the target area, it was about a mile and a half in front of the post. About a mile and a half to the rear were batteries A, B and C in firing positions.

The 105 millimeter shells whined on their way to the target—in this case a dead tree on a distant ridge line. It was surrounded by puffs of smoke. In front of the colonel were about a dozen officers and ranking non-coms observing the firing through field glasses. From time to time Capt. John E. Edwards, Fayette, who was conducting the day's exercise, would call upon an officer to fire the next "problem" as the artillerymen call it.

Specific Jobs to Officers

All of the officers in the battalion have specific jobs, but each must fire satisfactorily at least one problem during summer camp. Even the three pilots of the battalion's observation planes are not immune. They too, must come down from their lofty perch, to learn the artilleryman's way of doing things. The pilots, all air corps veterans are, Lieutenants L. K. Vale, C. E. Kehl and F. W. James.

In the 128th every man is taught as much as possible about the job of the battalion as a whole.

"It is a matter of appreciation," said Colonel Beynon. "The gun crews can't see where they are firing when they are in an enfiladed position as this. They don't see the target, or the shells explode. When they have to swing the gun trails around—hard work too—they can't appreciate the reason for doing it.

"So at times we bring the gun crews up here to show them what goes on up in the observation post. When they go back they have a good idea of why they have to do certain things."

Firing Batteries

The three firing batteries are A of St. Louis, the oldest military organization west of the Mississippi river; B at Columbia, and C at Sedalia. Headquarters of the battalion headquarters battery is at Mexico and the service battery at Boonville.

Colonel Beynon and Major C. C. Gage, the executive officer, would like to "fire problems too," but the commander explained that the two were giving the other officers and some key non-coms all the practice possible. I figure that in event of mobilization some of our non-coms will become officers," he said. "Then too, they might have to take over in an emergency."

The day before the battalion had spent the day in the field, getting ready to fire and firing. They spent all night in a tactical bivouac.

Colonel Beynon explained that in such a camp a guard is set up and no lights are permitted. Trucks and jeeps moving into the area must do so without lights—a ticklish task sometimes in these wooded hills and gullies. To avoid running over sleeping men each vehicle must be preceded by a man on foot to guide the driver.

Wednesday night the Battalion will supply the support for the 138th infantry of St. Louis during a night problem.

In Battery B of Columbia three of the officers have master's degrees or are studying for it. Capt. Adrian Durant has a master's degree in educational psychology; first Lieut. Donald Zalushy, is working on a master's degree in geology, as is first Lieut. Jim Connelly.

This reporter stopped to chat with two wiremen, the unsung heroes who have to string the wire for communications. Both have degrees from the university. They are Col. Bob Parmon and Pfc. George Jameson.

Field problems and overnight work in the field impose a lot of work on the service battery, commanded by Capt. Edwards. This is the outfit that must get all supplies, such as food and ammunition to the batteries and repair vehicles and equipment.

About 40 percent of the battalion is composed of World War II veterans. About 15 percent are men here for the first time—a rather small turnover as National Guard units go.

But recruit or veteran the 128th is carrying on, as never before, in the best traditions and spirit of that rollicking tune the artillerymen like to sing:

"Over hill, over dale
"We've hit the dusty trail
"And the caissons go rolling along."

The body is at the Gillespie funeral home where it will remain until the hour of the services.

Burial will be in Crown Hill cemetery.

Refutes Report Sawyer Lobbied

WASHINGTON, Aug. 24—(AP)—President Truman today denounced as absolutely without foundation published reports that Secretary of Commerce Sawyer has lobbied for authority to handle priorities and controls.

Mr. Truman told his news conference that Sawyer is in complete agreement with what the President asked for.

Mr. Truman made this assertion when a reporter called his attention to reports that Sawyer was trying to get the authority, rather than have it go to Chairman W. Stuart Symington of the National Security Resources Board.

"It is said," one reporter told him, that giving this authority to the Commerce Department would give an advantage "to business over labor and other groups."

That, the President said, is just a wild rumor.

The reporter did not say who had published the report but columnist Marquis Childs wrote today that Sawyer and his friends had been working quietly to make certain final power would rest in Sawyer's department.

Church Still Firm On Virgin Birth

LONDON, Aug. 24—(AP)—The Church of England still believes the virgin birth of Christ is "a fact of history," the Archbishop of Canterbury, Dr. Geoffrey Fisher, said today.

He took sharp issue with Dr. C. J. Wright, a professor in the church's St. Augustine college, who told the conference of the Modern Churchmen's Union last week that scholars were far from confident the Bible story of the virgin birth is correct.

The Church of England, Dr. Fisher said in a formal statement, "holds and proclaims the doctrine of the virgin birth as portrayed in the scripture and the creed to be a fact of history by means of which our Lord Jesus Christ came down from heaven and was made man for our salvation."

Chair Was Afire

Truman Says Strike Call Was Nnexpected

(Continued From Page 1)

it is vitally important to expedite," said Stoddard, a former army colonel. "We certainly cannot afford to have the transportation system tied up at this time."

The threatened nationwide rail strike brought a demand from Senator Donnell (R-Mo) for "immediate favorable action" on his bill, pending in the Senate labor committee, to outlaw all rail strikes and require rail labor disputes to be arbitrated.

"The interests of the public are paramount and overshadow the interests of either the employers or the employes of our nation's railway system," Donnell said.

If President Truman seizes the railroads, the rail workers would become government employes and as such could be punished by the courts for staying out on strike. However, the unions have pledged the men will work for the government under seizure.

If the President takes over the railroads, it would be the fifth time in 32 years. The last time all the railroads were seized was in 1948.

The usual course is for the government to require the regular rail operators to continue as the agents of the government, wages and other working conditions are preserved intact, and profits are accumulated by the carriers as usual.

Under past seizures, the government has required management and unions to keep negotiating until such time as they could reach an agreement and the seizure ended. The government could go ahead and make its own settlement with the unions, but such a course is unlikely.

The dispute with the trainmen and conductors has been going on since March, 1949. The unions asked a 40-hour week with the same pay as now received for a 48-hour week for men in yard service, plus a pay boost for workers in train service.

An emergency board named by Mr. Truman turned down the requested pay boost for train service men and recommended the 40-hour week plus an 18-cent hourly increase for yard service men. The unions said the train service men should have gotten something and the yard service men a 31-cent hike.

The carriers stood pat on the emergency board's recommendations. The unions held out for their full demands.

Nearest thing to a settlement was a proposal, accepted by the carriers but rejected by the unions, calling for a 23-cent boost, instead of 18 cents, for yard service employes and a five-cent increase for train service workers. This plan was proposed by John R. Steelman, President Truman's assistant and labor expert, in the form of a three-year agreement. With it was coupled a clause to permit automatic increases if living costs go up.

Following union action last night in ordering the nationwide strike, the carriers put out a statement accusing the union leaders of "double-dealing and complete irresponsibility." They said the unions acted 45 minutes after they assured the White House "no further strikes were contemplated."

"The existing deadlock," the carriers' statement said, "is due to the refusal of the two (labor) organizations to settle this dispute on the basis of the recommendations of President Truman's fact-finding board and, on the other hand, to the conviction of the railroads that they are not justified in granting greater concessions than the President's board recommended."

Presidents William P. Kennedy of the trainmen and R. O. Hughes of the conductors said they ordered the country-wide walkout "in justice to the interests and rights of more than 300,000 railroad workers we represent."

The present "token" strikes have idled key rail terminals at Cleveland, Louisville and St. Paul where the walkouts are due to end Friday night, and two steel-hauling railroads serving the Chicago and Pittsburgh industrial areas, where the strikes are due to end Saturday night.

Suggests That Johnson Quit

Collier's the national weekly, charged today that President Truman and his advisers are responsible for the "mess" in Korea and at the same time repeated a previous suggestion that Secretary of Defense Louis Johnson resign as "a patriotic duty."

In a two-page article under a banner headline entitled "Too Little, 45 Days Too Late!", Collier's states editorially that despite the courage and moral leadership displayed by the government since June 25th—after Korean Reds attacked South Korea—the administration's "unreadiness and uncon-

cern before that date constitutes a major scandal."

"It does not matter whether the nation's lack of preparednes for the action in Korea resulted from the Defense Secretary's total lack of correct information or from a deliberate and dishonest wish to conceal the true state of affairs from the country," the editorial says.

"In the issue of last April 15th, Collier's called on Secretary Johnson to resign as a patriotic duty. Subsequent events have proved the urgent necessity of that step. Now Collier's repeats that suggestion with all possible emphasis."

Serious New Threat To Pusan by Reds Has Developed

(Continued From Page 1)

ties of the North Koreans in the rear, mangling rail lines along the east coast and hitting the main western railroad running toward the battlefront. The superforts also smashed at one of the largest chemical plants in east Asia at Konan in North Korea, dropping 290 thousand-pound bombs.

The southern and eastern battlefronts were relatively unchanged. In the south U. S. 25th Infantry division troops renewed an attack to win positions on a dominating ridge at the outer approaches to Pusan, main U. S. harbor on the southeast coast.

On the eastern front, South Korean marines landed on the island of Uido.

One Missing in Cruiser Blast

GRAFTON, Ill., Aug. 24—(AP)—An explosion and fire wrecked a 26-foot cabin cruiser on the Mississippi river near Grafton last night, and the Coast Guard was searching today for the owner of the craft.

Missing was Alfred D. Steinman, operator of an interior decorating firm of the St. Louis suburb of Maplewood, Mo. He purchased the boat about a week ago.

Six other persons were aboard the boat. Three managed to reach shore, and the others were rescued by a passing boat.

Leonard Stinchcomb of Ferguson, Mo., another St. Louis suburb, was one of the passengers. He said the boat was in the middle of the river when the explosion occurred. The flames were soon out of control, he said.

"We all put on life preservers except Al (Steinman)," Stinchcomb said. "We all went overboard together, with Al coming off last. We tried to keep together by hollering at each other, but the current was very swift and swept us apart. Soon we couldn't see or hear each other."

When last seen Steinman was using a chair to help himself stay afloat. He was known as a good swimmer.

but no reductions were made in military items.

House passage is scheduled for tomorrow.

Boost Fifty Billion

The bill boosts to more than $50,000,000,000 the federal budget for this fiscal year. The remaining $34,000,000,000 is in a general one-package appropriation measure on which Senate-House conferees hoped to reach final agreement during the day.

The defense funds the new bill contains are in addition to more than $14,000,000,000 in the general appropriations measure. The House voted $14,300,000,000 and the Senate $14,679,000,000.

Larger items in the emergency measure, on which work was started after the Communist invasion of South Korea June 25, include:

$4,535,400,000 for the Air Force;
$2,648,029,000 for the Navy;
$3,063,547,000 for the Army;
$4,000,000,000 for arms aid to foreign nations;
$260,000,000 for work on atomic weapons, including the hydrogen bomb;
$598,637,370 for stockpiling of strategic materials.

In addition there is approximately $62,655,850 to strengthen the State Department's "Voice of America" program, $190,000,000 for military research and development, $19,360,000 for the draft machinery, $18,000,000 to ready laid-up merchant ships and $10,000,000 for President Truman's emergency fund.

Credit Directors Hold Convention

Directors of the 45 production credit associations in Illinois, Missouri and Arkansas discussed ways of completing the job of making their associations completely farm owned as quickly as possible, at a conference in St. Louis this week, according to Edward Heffernan, Route 5, a director of the Jefferson City Production Credit Association, who attended the conference.

Most of the associations felt that their farmer members would enthusiastically support a program to make their associations completely farmer-owned by the end of 1951. Seven of the associations in the three states have already reached that goal, according to Mr. Heffernan. As a group, the 45 associations have reduced their Government-owned capital from a peak of $8.4 million in the 1930s to $2.7 million now. On the other hand, the farmer-owned capital and reserves have increased to $12.5 million. Combined farmer-owned stock and the reserves of the Jefferson City Production Credit Association now totals $323,650 while the Government-owned stock is down to $85,000.

SEDALIA MERCHANTS OFFER DOLLAR DAYS VALUES TOMORROW AND SATURDAY

Sedalian Returns From Music Camp

Charles Walch, son of Harry W. Walch, 711 West Broadway, returned home with his family Tuesday from an eight week term in the National Music Camp located in Interlochen, Mich. While at camp he played in the high school band, the high school orchestra, the brass choir, the dance band, the string orchestra and did some work in the festival choir.

He majored in three instruments: the baritone horn, trombone and the violin. At the close of the season he played first chair baritone in the band, twelvth chair second violin and second chair trombone in the brass choir. He was also a member of both the orchestra and band broadcast groups, which presented concerts at Interlochen the entire season.

His first chair in the band gave him the right to play in a small concertino group with the other heads of sections in the final band concert held Sunday, August 20, which was also the last day in camp.

Charles is 14 years old and was in the high school division at the camp and this year will be a sophomore at Smith-Cotton.

Charles' father and three sons, Stan, Tony and Teddy traveled via Chicago to Interlochen and Mackinacw Island. They met Charles Friday and stayed there through Sunday after which they returned to Sedalia by car.

Sanitation Project On

The program which began on Monday, August 14, to spray the alleys of the city with D.D.T. in order to help get rid of flies has been completed in the downtown area according to an announcement by the sanitation department. The section, which has been completed, includes the area from Missouri avenue, east to Washington avenue and from the Missouri Pacific tracks, south to Tenth street.

The work has been done in connection with the Division of Health of Missouri, who furnished a portion of the spray and the sprayers used in the operation, through their local district office. The remainder of the program will be completed in the near future and the people are again urged to co-operate by following these rules:

1. Clean up all breeding or attracting places on your property, for flies.
2. Spray around the screens, under porch roofs and all other places where flies may be found.
3. Repair screens and use spray and swatters and all other means of eliminating flies from the home.

Cut all high weeds and grass. Unless the citizens do their part in this campaign the work of the sanitation department in the alleys and other breeding places will do little good.

First American Marines in European waters during the Revolution were those aboard the "Reprisal," which took Benjamin Franklin to France in 1776 and later captured several British prizes.

Malik Repeatedly Hints At War In His Statements

By J. M. Roberts, Jr.
AP Foreign Affairs Analyst

Students of both language and politics at Lake Success are studying the word of Soviet delegate Jakob Malik in an effort to determine whether he is actually threatening a general war.

Twice during this month of his Security Council presidency the Soviet delegate has made statements which sound very much that way.

On August 3 he said regarding Korea that "the Security Council and the United Nations face a choice between two paths: The path of peace and the path of war."

Goes Farther Tuesday

Tuesday he seemed to go even farther. Continuation of the war in Korea (instead of ending it on Russian terms) he said, "would inevitably lead to a broadening of the conflict."

State department experts in the Russian language immediately began studying the words and their context.

Sir Gladwyn Jebb of the United Kingdom didn't wait. He started quoting chapter and verse from Communist texts to show that when the Soviet speaks most loudly of peace it is preparing most actively for war.

Malik has been doing a lot of talk about that, too, claiming that Russia's policy is one of peace while everyone else is heading down the war road.

Jebb quoted the Communist Minister of Defense in Hungary as saying on April 12 that true Pacifism had to be wiped out among party members before it could be wiped out among the masses.

Jebb reminded Malik of Stalin's statement in 1939 that France and England had attacked Germany. The Britisher went on at length about Soviet use of Hitler's "big lie" technique.

Translation Is Vague

It is very difficult, in many cases, to tell from an English translation what a Russian means. Because Russians do not think like Englishmen and Americans, and their words do not mean the same. From Malik's context on the two occasions it is possible to read his words as referring to broadening of the Korean war through involvement of the forces of U. N. members other than the United States. It is also possible to read them as predicting a general war despite Russia's desire to avoid it.

But when Molotov and Vishinsky referred to there being no more secret about the atom bomb it was followed by a Russian atom bomb. When Malik talks about a bigger war it is easy to take it as a prediction of something that is planned, something that is already generally feared, and something that is more or less expected anyway.

Miss Yunker Is Home From Interlochen

Miss Ruth Ann Yunker, daughter of Mr. and Mrs. Harold G. Yunker, 1214 South Carr avenue, returned home Wednesday from her second term at the National Music Camp located at Interlochen, Mich. She is one of Sedalia's most talented piano players and majored on that instrument.

Miss Yunker also sang in the university choir and took a course in music literature. She has attended the camp for two years. While she was in Smith-Cotton prior to her graduation in 1948 she did a great amount of piano work in Sedalia and she still does play here when she is home. She has given several recitals at various places in town and has been well received.

Miss Yunker is 20 years old and will be a junior in college this fall. She is going to attend the Eastmond School of Music at Rochester, N. Y. and was in the university division at the National Music Camp.

Her parents traveled to the camp where they met her Saturday, August 19 and stayed until Monday when the whole group drove home.

WERE WOMEN BORN to SUFFER?

"No," say lots of lucky girls

Maybe you, too, can look back on those "dreaded days" each month and revel in blessed relief from pain. For if you suffer from functional periodic cramps, discover—as so many other women have—the wonderful help Cardui may bring.

Cardui works internally to help minimize painful contractions of the organ muscles. Thus it aids in overcoming a frequent cause of cramps. Maybe your suffering is needless, too. See what aid of this modern type can do for you. Ask for a bottle of Cardui.

Huge Crowd at Harness Races On Wednesday

Lusty Song, Winner Of Hambletonian, Is Here Today

It looked like "Big Thursday" at the Grand Circuit races on the Missouri State Fair grounds Tuesday, but it was really Wednesday, Governor's and Kansas City Day. The attendance at the races was believed to have been one of the largest since Grand Circuit racing started here.

Scottish Pence, owned by the Castleton Farm, Lexington, Ky., was the winner of the Governor Forrest Smith trophy in the Big Five, Pace 14 class, $5,000 purse. The trophy was presented by Governor Smith to Fredrich Van Lenneup of Lexington, Ky.

Quilla Hanover Winner

Quilla Hanover, the property of Cleo A. Young, of Timonsville, S.C., won a straight heat victory in the $11,920 race for three-year-old pacers. In the rich three-year-old event, Irish Hal was second and Mighty Sun third. The winner was driven by Johnny Simpson. Mrs. Frank Ervin, wife of one of the country's best known drivers, and a former Sedalian presented the trophy to the winner.

Leo C. McNamara's fleet filly, Scotch Rhythm, captured the $17,899 American National three-year-old trot, the feature race of the Grand Circuit program for the day. H. E. Warren, member of the Illinois Racing Commission, East Moline, Ill., presented the trophy to Mr. and Mrs. McNamara.

Scotch Rhythm was driven to victory by Ralph Baldwin, after capturing the elimination came back to win the finale. Sep Palin's Mailliner also of Indianapolis earned second money by winning the second elimination dash. Mighty Fine was third in the summaries.

The winner is a full sister to Lusty Song, winner of the 1950 Hambletonian, which is to appear in the racing events today.

St. Louis Wins Junior Tourney

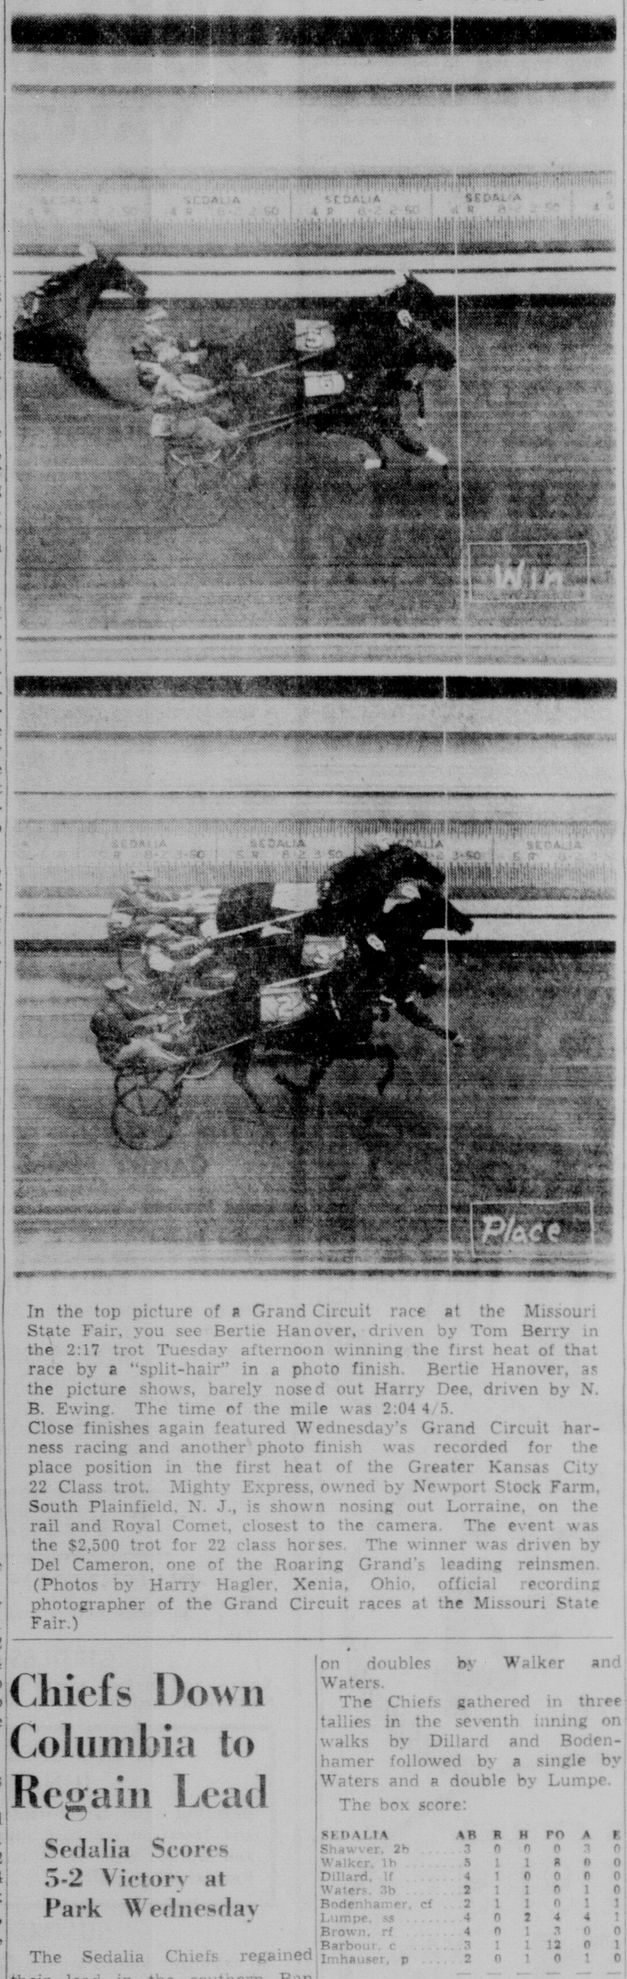

MASON CITY, Ia., Aug. 24—(AP)—St. Louis won the four-state district American Legion junior baseball title last night by shutting out Duncan, Okla., 3-0.

The victory qualified the Missouri team for the sectional tournament at Bloomington, Ill., next week.

Finishes in Grand Circuit Events

In the top picture of a Grand Circuit race at the Missouri State Fair, you see Bertie Hanover, driven by Tom Berry in the 2:17 trot Tuesday afternoon winning the first heat of that race by a "split-hair" in a photo finish. Bertie Hanover, as the picture shows, barely nosed out Harry Dee, driven by N. B. Ewing. The time of the mile was 2:04 4/5.
Close finishes again featured Wednesday's Grand Circuit harness racing and another photo finish was recorded for the place position in the first heat of the Greater Kansas City 22 Class trot. Mighty Express, owned by Newport Stock Farm, South Plainfield, N. J., is shown nosing out Lorraine, on the rail and Royal Comet, closest to the camera. The event was the $2,500 trot for 22 class horses. The winner was driven by Del Cameron, one of the Roaring Grand's leading reinsmen. Chiefs Down Columbia to Regain Lead

Sedalia Scores 5-2 Victory at Park Wednesday

The Sedalia Chiefs regained their lead in the southern Ban Johnson league Wednesday night when they defeated the Columbia McKays at Liberty Park by a score of 5-2. Imhauser, the starting pitcher held the Columbia team hitless until the seventh inning when Monroe, the Columbia third baseman, lifted a long hard hit homer scoring Kurtz, the short stop, who had gotten a base on balls. This accounted for the only Columbia runs.

Behind the plate for Imhauser was Barbour and the McKays started Poore who was relieved in the eighth with Hudson doing the catching chores.

First Run in Third

The first Chief run was yielded in the third frame. Two of the Chiefs accomplished this when Barbour reached first on a walk, later going to second on an overthrow and Imhauser driving in the run with a single.

The next lone run for the Sedalians came in the fifth frame on doubles by Walker and Waters.

The Chiefs gathered in three tallies in the seventh inning on walks by Dillard and Bodenhamer followed by a single by Waters and a double by Lumpe.

Stock Cars Are Entering Local Races

Prospect of Nearly 35 Coupes-Sedans In 100-lap Event

State Fair auto race officials saw the prospect today of nearly 35 coupes and sedans, none of them older than 1946 vintage, careening around the fair grounds oval Sunday morning in trials to determine the 20 fastest starters in the 100-lap auto racing marathon that afternoon.

Entries for the long distance speed grind now total 28 and last hour enrollees are expected to bulge the field to 35 before the entry deadline falls at midnight Friday.

Drawn from big cities and country crossroads, from the professional speed circuits and from the ranks of ordinary highway drivers, the list of contenders shows nine states now represented in the scramble for $2250 prize awards.

Most of the cars entered are 1949 and 1950 models, a majority of them the latter. Practically all leading makes are in the lineup.

The latest model entered is a 1951 Kaiser, to be piloted by Art Carter, a Chicagoan. The oldest is a 1947 Ford entered by Chick Beverlin, Calumet City, Ill.

Some of the standout entrants are Herb Craig, a stock car racing pro from Keithville, La., with a 1948 Nash; Eddie Anderson, Grinnell, Iowa, with a 1956 Mercury; Don Smith, Topeka, Kas., with a 1950 Ford; George Christensen, Chicago, with a 1950 Lincoln; Bill Lehman, Hutchinson, Kas., with a 1950 Pontiac; Don White, Keokuk, Iowa, with a 1950 Mercury; Wally Dahl, Minneapolis with a 1950 Oldsmobile and Frankie Luptow, Tampa, Fla., big car speed king, with a 1950 Oldsmobile.

Qualifying trials are scheduled for 11 a. m. The big race starts at 2:30.

Staley Pitches A Three Hitter

By the Associated Press

Gerald Staley pitched three hit ball last night in the eight innings he worked, but it went for naught and the St. Louis Cardinals were beaten 2-1 by the Boston Braves.

The third-place Braves scored both runs in the third inning on a double by Sam Jethroe after Staley had issued two passes and Warren Spahn sacrificed.

The Cardinals, now trailing Boston by a full game and nine lengths out of first place, were held to four hits by Spahn.

The New York Giants come to Sportsman's park for a three-game series opening tonight, and the Redbirds must win at least one of the games to keep out of the second division.

The only Cardinal run last night came in the third inning. Tommy Glaviano walked and Red Schoendienst singled. Both advanced when catcher Del Crandall made a bad throw trying to pick Glaviano off second, and Glaviano scooted home as Stan Musial grounded out.

Lou Perini, president of the Braves, and owner Fred Saigh of the Cardinals were in close conversation during the contest, giving rise to speculation that a winter trade may be in the making.

The Browns were beaten by the Boston Red Sox for the tenth straight time, 9-5. It was the 17th defeat for the Browns in 18 games with the Red Sox this season.

Errors in the second inning—one by Les Moss and two by Owen Friend—turned the tide against the Browns, helping Boston to four runs. The Bosox got to Dick Starr and Jack Bruner for 11 hits, including Walt Dropo's 28th homer of the season. One of the nine hits by the Browns was Moss' seventh homer of the year.

Sedalian in Stock Car Race

The Yellow Cab will have an entry in the 100-mile lap stock-car races at the Missouri State Fair Sunday afternoon and Ervin Yeager, 511 West Second street, twenty-nine years old will be the pilot. Marvin Howard, owner of the car, has had his mechanics giving the machine a complete overhaul job under Bill Lawson and Bob Jansen, mechanics, who will watch over the vehicle as it grinds its way around the State Fair dirt track. Easter Night Wins Five Gaited Class

Ridden by Scott Higgins of LaMonte In Horse Show

Scott Higgins, LaMonte, riding Easter Night, won the five-gaited saddle horse class at the Missouri State Fair horse show Wednesday night before a capacity crowd in the coliseum. Stonewall Chief A of the Vic Johnson stables, Sedalia, placed fourth in the class with Bob Eoff up.

It was a responsive crowd and when winners were picked it was not hard to tell what the crowd thought. When it approved the judge's decision the applause was loud. It also voiced its disapproval, a noteworthy example occurring when first place was announced in the walking horse class.

Few Short Classes

The horse show has drawn some fine horses to the fair this year. There are exceptionally few of the "short classes."

Tonight the feature class will be the open junior five-gaited stake, stallion, mare or gelding, foal of 1946. This class has fifteen entries.

Results Wednesday Night

Three-gaited saddle horses, boy or girl 12 to 21 years of age, to be judged for seat and hands on 3-gaited saddle horses over 14.2 and under 15.2. Sara Simpson, riding Sammy Kay, owned by Mrs. Grover Simpson, Salina, Kas. first; All Spice, owned by Dr. Q. W. G. Maddox, Macon, Mo., fourth. Six shown.

Five gaited saddle horses, stallion, 4 years old or over — Easter Night, owned and shown by Scott Higgins, LaMonte, first; Stonewall's Peak of Dawn, R. P. Glenn, Columbia, second; Easter Vanity, George Roberts, Clinton, third; Stonewall Chief A, Vic Johnson Stables, Sedalia, fourth. Five shown.

THIRD TIMER—Frank Shafer struck out 18, walked only one pitching his third no-hit game this season. Shafer, 17, has averaged two strikeouts per inning all the way along the route. The Beloit, Wis., American Legion Junior has been chosen the most valuable player in state tournaments the past two years. Scouts of six major league clubs have approached the young right-hander, but he cannot be signed until after Sept. 10.

State Fair Awards

Agriculture Exhibit

Pettis was the 1950 winner in a six entry race for best county agricultural exhibit — a race that was once a top light of the Missouri State Fair, and many fine displays were left out of the ribbon class. This winning exhibit was prepared by Mrs. W. H. Sperber, Route 3, Sedalia and she did a nice job of portraying the resources of the good county.

Cooper county was placed by W. E. Aslin, Columbia, who judged the agriculture exhibits. Moniteau, Benton, Lafayette and Audrain followed next in order as money winners. The meat show had some fine country cured hams and slabs of bacon according to Prof. James E. Comfort, Columbia, who tied the ribbons in this section. Hugo Alwel, Concordia, had the champion heavy ham, which is customarily presented to the chief executive of Missouri on Governor's day at the Missouri State Fair.

M. W. Crabtree, Jefferson City and R. T. Wright, Maryville, superintended the show which was pronounced excellent in most divisions. Results follow:

Shoots up Police Station

Arrested earlier for drunkeness, Delbert Snyder, 25, expressed his resentment in dramatic fashion by shooting up the Colorado Springs, Colo., police station with a pistol and rifle. Captured later, he tried to hang himself in a jail cell with strips from a mattress cover. Officers cut him down and are shown removing the noose from his throat. (AP Wirephoto)

Kindness Proves To Be Profitable

SPOKANE, Aug. 24—(AP)—Five years ago Mr. and Mrs. Roy Dean and their three small children moved into a west side home. One of their new neighbors was 80-year-old Herrman Mehlmann, a bachelor who lived alone.

The old man became a great favorite with the children. He loved to sit on his porch and watch them play. He was a frequent visitor at the Dean home, too, happy to accept occasional invitations to dinner.

In 1948, the Deans bought a small farm near the city limits and moved away. Mehlmann was alone and bedridden then so the young couple invited him to come live with them.

Three weeks ago the old man died.

Yesterday his will was admitted to probate. Mehlmann, a retired jeweler, had written that "because of the attention and kindness they extended me in the past" he was leaving his entire estate of $50,000 to the family. There are no known survivors.

Dean works for a trucking company here.

From its derivation, the word "classic" means first class.

Reunion is Held In Nowlin Home

A family reunion was held in honor of Rev. and Mrs. L. W. Verts of Cresco, Iowa, at the home of Odis Nowlin and sister, Mrs. A. B. Wild, 620 South Massachusetts on Sunday, August 20th with a basket dinner at the noon hour.

The afternoon was spent in conversation and taking pictures. At 4:00 o'clock all went to the First Baptist church in Sedalia where Rev. L. W. Verts officiated at the wedding of a niece, Mary Martha Windsor, who became the bride of Charles Dilthey.

Those attending and enjoying the day were:

Rev. and Mrs. L. W. Verts of Cresco, Iowa; Mr. and Mrs. Roy Verts, Kansas City, Mo.; Mr. and Mrs. Charles Verts, Boonville; Mr. and Mrs. Henry Windsor and daughters, Mr. and Mrs. Harry Verts and son, Mrs. J. Roger Verts and daughters, all of Boonville.

Mr. and Mrs. James Hall, Odis Nowlin, Mrs. A. B. Wild, Mary Martha Windsor, Charles Dilthey, all of Sedalia; Mr. and Mrs. Shelby Monsees, Mr. and Mrs. J. L. Verts of Smithton.

Those unable to attend were a brother, Ernest Verts and family of Aberdeen, S. D.; Mrs. James Verts and family, Cozod, Nebr., and an uncle, I. M. Verts and family of Nelson.

Madame Curie, co-discoverer of radium, whose maiden name was Marie Sklodowska, was born in Warsaw, Poland, in 1867.

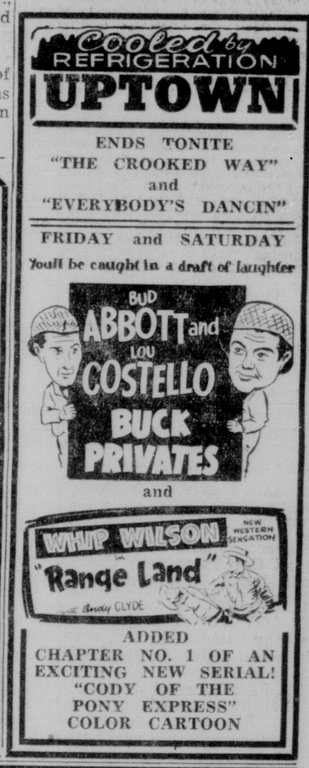

Monrovia, capital of Liberia, is named after U. S. president James Monroe.

Angel Falls, in Venezuela, drops 3212 feet, or 15 times farther than Niagara Falls.

In an average year, more than a billion metal cans are used to pack meat in the United States.

Do You Know Any of these People and Their Interesting Experiences?

As Gratefully Told to Senator Dudley J. LeBlanc—

Great Statesman and Friend of the People—the Man Responsible for HADACOL—One of the Greatest Contributions of the Times For Men, Women and Children Suffering Deficiencies of Vitamins B_1, B_2, Iron and Niacin... like the folks* below:

See if Any of Your Friends Are Here From Other Towns

Mr. John McClendon, P. O. Box 8191, Los Angeles, California. "My age is 44. My trouble is stomach distress. Can't eat and when I do, it makes me sick. But HADACOL has done me more good than anything I have tried. My mother lives in Mobile, Alabama, and sent it to me. I don't think there's anything better than HADACOL, and if there is you can have it." (A very thoughtful mother to send her son HADACOL. Why don't you send a bottle to a relative with this trouble?)

Mr. Alidore Kramer of Marrero, Louisiana. "I want you to know how your wonderful HADACOL helped me. I suffered so from neuritis pains and aches, I hurt so, and I could hardly use my right hand. I even had my teeth out but got no help. I started to get HADACOL. Now I sing while I plow my fields. I'm so happy. I'll never be without HADACOL. I take it every day."

Mrs. Virgle Finley, Route No. 1, Monterey, Tennessee. "I was weak and run-down so that I could hardly sleep any, and was so nervous I could hardly do my housework. My stomach had so much gas on it that everything I ate seemed to hurt me. I had tried all kinds of medicine and nothing seemed to help me. I started taking HADACOL a few weeks ago and believe me it surely has helped me. Now I can eat anything and am sleeping well at night. I cannot praise HADACOL enough and I have taken only 4 bottles." (Mrs. Finley is a wise woman. She knows continued use of HADACOL prevents such distress from returning.)

Beatrice Starks of 303 Milford Street, Honea Path, South Carolina. "I just had to write you a few words to try to tell you how much HADACOL has helped me. I had an operation in February. Then I started washing too soon, took neuritis in my hands and arms and after that couldn't do anything. I heard about HADACOL, decided to try it and I'm sure glad I did. My indigestion was so bad I couldn't eat anything I liked but now I can eat what I want. My hands don't hurt or my hips don't when I get up like they did before. I started using HADACOL. I am on my eighth bottle. Please keep hollering it out so many others will hear about it."

Mrs. Tom Kennedy, 1302 Rector Street, Hot Springs, Arkansas. "My trouble was terrible pains right after I ate my meals. I have tried pills but they didn't do any good, so I thought I would try HADACOL. After the first bottle of HADACOL, I got relief, so I wouldn't be without HADACOL. I have already told all my neighbors about HADACOL, how good it is. They are also taking it. I am 49 years old and I sure do feel a lot better, thanks to HADACOL." (What a wise woman Mrs. Kennedy is. She realizes continued use of HADACOL helps prevent such stomach misery from returning.)

Alex J. Anderson, Route No. 1, Caryville, Florida, a very bright youngster. "I am ten years old. I've always been puny. I never have eaten or played like my brothers. I've been taking HADACOL for a while, now feel better, play more and like to go to school. HADACOL is really a good product."

Mr. Clifton Crum, 511 West Commerce Street, Greenville, Alabama. "I am taking my third bottle of HADACOL and it has done more for me than any medicine. I was awfully weak and nervous and rundown. I would have weak nervous spells and I had no appetite for food. So I heard different people praising HADACOL over the radio. My wife wanted me to give it a trial and I sure am glad I did. My back would hurt me so with neuritis pains till I couldn't sleep at night but that is all in the past. My backache is gone now and I am feeling good so I am going to continue taking HADACOL. I am 35 years old, employed by Greenville Ice and Coal Co., Greenville, Ala. I hope everybody will try HADACOL. I just can't praise it enough as it seems to be just what I needed."

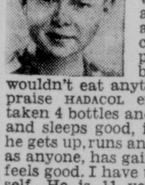

Mr. John Krumpelman, 127 Warren St., Lexington, Kentucky. "Four months ago I was suffering from lack of energy; no get up and go at all. I also had a lack of appetite and great irritability. Then my friends recommended HADACOL, and in a very short time my appetite began to go back to normal and it seemed as though a miracle had happened because everything was once again very bright."

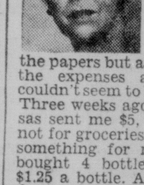

Mrs. John R. Grizzle, Jr., 4903 B. Chaparral, Dallas, Texas. "I'm writing you to let you know just what HADACOL has done for me. I was feeling bad—nervous, had headaches, lost my appetite—so my mother advised me to get HADACOL and try it. My baby is only 2½ months old and it sure has helped me. I've taken only one bottle and it has done wonders. My husband is taking it now too, and he surely feels better, and not so tired after a day's work. I recommend HADACOL to everyone who needs a tonic, and it surely will make you feel better. I hope this will help someone to feel better by reading or hearing this information."

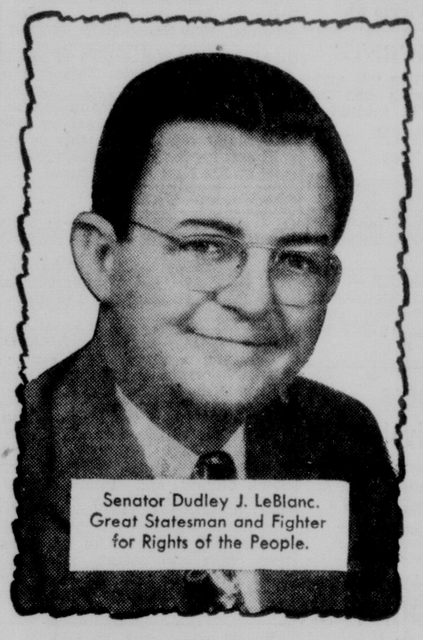

Mrs. Helen Barron of Meansville, Georgia. "My little boy had been sick for quite some time. Until I heard about HADACOL over the radio, he was weak, run-down, and apt to catch anything — he couldn't run and play like other boys did, and he wouldn't eat anything. So I can't praise HADACOL enough. He has taken 4 bottles and eats anything, and sleeps good, isn't tired when he gets up, runs and plays as much as anyone, has gained weight, and feels good. I have taken some myself. He is 11 years old now. I can't tell enough about what HADACOL has done for my son. He even looks better. I want all my friends to try HADACOL."

Mrs. L. L. Martin, 4207 Woodhead Street, Houston 6, Texas. "I am sixty years old. For the past few months have been suffering from almost constant heartburn and a heavy feeling in my chest. I had heard so much over the radio and read about HADACOL in the papers but as I take care of all the expenses at home, I just couldn't seem to be able to buy any. Three weeks ago, my son in Kansas sent me $5, telling me it was not for groceries but to please buy something for myself with it. I bought 4 bottles of HADACOL at $1.25 a bottle. After the first few doses of HADACOL I was entirely free of the heartburn and also of the heavy tired feeling I had been experiencing."

The Creator of The Famous Product Which Has Helped So Many Thousands of Men, Women and Children

GET THAT WONDERFUL HADACOL FEELING!

This wonderful experience which these folks had from taking HADACOL might very well happen to you if you suffer from Vitamin B_1, B_2, Niacin and Iron deficiencies.

This amazing quick-acting HADACOL not only supplies deficient systems with extra amounts of Vitamins B_1, B_2, Iron and Niacin, but also helpful amounts of Calcium, Phosphorus and Manganese — elements so vital to maintain good health. A big improvement is often noticed within a few days' time!

Don't Be Satisfied With Symptomatic Relief! Today, in this modern age, wise people are no longer satisfied with taking products which just give symptomatic relief. Because now it's possible to relieve the CAUSE of such sickness with HADACOL. And so important—continued use of HADACOL helps prevent such miseries and distress from coming back.

HADACOL Has Benefited Countless Thousands HADACOL also helps build up the hemoglobin content of your blood (where iron is needed) to carry these precious vitamins and minerals to every organ and every part of your body—to the heart, liver, kidneys and lungs, pancreas and gall bladder—(even to the eyes, hair and nails). Countless thousands are benefiting from HADACOL. Why don't you give it a chance to help you? Why continue to suffer? Remember HADACOL doesn't give symptomatic relief—rather it relieves the real cause of your illness when, as so often, it's due to such deficiencies. That's why it's so effective—why it's accomplishing such amazing results.

BE FAIR TO YOURSELF

You owe it to yourself—you owe it to your family to give HADACOL a trial. Don't delay.

HADACOL is sold on a strict money-back guarantee. You can't lose a penny and you have everything (that wonderful, wonderful HADACOL feeling) to gain. Only $1.19 trial size. Large family or hospital size, $3.39

2—Cards of Thanks

I WISH TO THANK my relatives and friends for visits, flowers, cards and favors I received while a patient in hospital.
Mrs. Louis Bickel.

3—In Memoriam

IN MEMORIAM: In memory of a dear one who has passed away, send flowers to your church. We will handle all details. Pfeiffer's Flower Shop.

IN LOVING MEMORY of my son John Stansbery, Jr. who was killed in action August 24, 1942.
He had a smile for everyone,
A heart as good as gold;
For those who knew and loved him,
His memory will never grow old.
Sadly missed by mother, Mrs. John B. O'Brien.

Top Notch Cubs Meet Tonight

WICHITA, Kas., Aug. 24—(AP)—The two teams that have monopolized the National Semi-Pro baseball championships in recent years — Fort Wayne, Ind., and St. Joseph, Mich., both will be seen in tournament action tonight.

The Fort Wayne Capeharts, who won the last three tournaments under the banner of the Fort Wayne General Electrics, make their first round start against the Roxboro, N. C., Blues at 11 p. m. (EST).

The St. Joseph Auscos, 1946 champions, will meet the Sinton, Tex., Plymouth Oilers in a second round game after having blasted Derry, Pa., VFW, 14-1, last night. It's scheduled for 9 p. m. (EST).

In the opener tonight, the Arkansas City, Kas., Maurer-Neuers take on the Weiser, Ida., Prospectors. The first round match will begin at 6:45 p. m. (EST).

St. Joseph needed only seven innings to trim Derry, the game being halted by the tournament scoring rule. Bob Winters and Lacy Curry each hit homers for the Michigan team.

The Honolulu, Hawaii, Braves behind the no-hit pitching of Ed Correa, defeated Jeffersontown, Ky., 12-0, in a first round game halted after five innings.

In another short game last night the Santa Maria, Calif., Indians defeated the Casa Grande, Ariz., Apcos, 10-1, in 6½ innings. It was a second round game.

The Kenosha, Wis., Chiefs eliminated Exeter, N. Y., Bears, 8-4, in an afternoon game yesterday and South Amboy, N. J., advanced with a bye when the Barksdale Field, La., Bombers, weakened by loss of four players ordered back to their base, withdrew.

Call for Bids on Student Union Building

COLUMBIA, Mo., Aug. 24.—(AP)—Bids were asked yesterday for a $2,300,000 Student Union building at the University of Misouri.

Leslie Cowan, vice president of the University, said the 150 by 166 foot 2-story structure will be built as the north wing to the Memorial Tower completed in 1926 as a memorial to the dead of World War I. The new building be a memorial to war dead of World War II.

Bids will be opened Sept. 6, and Cowan said construction will begin this fall if construction offers are within available funds.

Belgian Draft Horses

Three breeders furnished the horses in the 1950 Missouri State Fair show, pronounced by Ernest Humbert, Corning, Iowa, Judge, to have good quality in spite of the decline of interest in the heavy type horses.

Four matched teams, hitched to colorful rubber tired wagons made a nice display in the coliseum.

Outside the coliseum in a show tent a "World's Largest Team" of Belgians, one imported, was being visited by many people. Both horses stood 18½ hands and weighed near three tons. Both were excellent type individuals, trained to pull. L. J. Smith, Hedrick, Iowa, a National Championship record breaker on three occasions since 1944 owns the mammoth pair and the twelve year old horse of his own breeding was one of the National Contest winning pair. He stated that they have created a lot of interest wherever he has exhibited them. He will go from Missouri to Virginia next week, where he will make an eastern circuit of fairs.

State Fair Awards

Wool Show

The 1950 Missouri State Fair Wool Show in its third year brought out fifty excellent fleeces to make one of the interesting attractions of the Agriculture building.

A sixteen pound Corridale fleece from a pure bred ram owned by Charles S. Brown, Osborn, breeder of sheep for fifty years and a Corriedale breeder for the past thirty-one years took the Grand Championship award and will be entered at the American Royal Show this fall. Brown, a staunch booster for the Missouri sheep production of long standing, won prizes on seven fleeces of his eight entered in the 1950 show.

E. Glen Thacker, Kansas City, superintendent found all the breed classes filled except Southdown. The wool was graded by J. E. Ellis, Mid-West Wool Growers Association, Kansas City, who pronounced the quality improved over last year's exhibit.

Mr. Thacker expressed disappointment in the lack of interest in the special classes for breeds where competition is limited. Wool production in both Missouri and the Nation as a whole is at a low ebb and the demand the highest on record, with fine wools selling at a big premium this year.

Moon's Moon

If there are persons living on the moon, they would see our earth pass through the phases from crescent to full, just as we now see changes of the moon.

Fat Hat

During the reign of King Seti I (1318-1928, B. C.), formal dress at an Egyptian banquet included a cone-shaped chunk of fat worn on top of the head.

Since the advent of wireless, later radio, and then television, hardly a day goes by without some new technical word coined for the language.

TARGETS FOR UN BOMBERS—North Korea presents plenty of militarily important industrial targets for our bombers, as map above shows. More than 80 per cent of all Korean heavy industry is situated north of the 38th parallel, according to the National Geographic Society. Bulk of this industry is concentrated in the five centers indicated in white type. U. S. Air Force's strategic bombing of the Communists' war industry and transportation lines eventually is reflected on the fighting front by critical shortages of arms, munitions, automotive and airplane fuel and repair parts.

House Members Vote Extra Stationery Fund

WASHINGTON, Aug. 23—(AP)—House members voted themselves an extra $300 apiece for stationery today — even though Rep. Rich (R-Pa) suggested that some congressmen may be using the money "for other purposes."

The vote was 164 to 46. The members were not recorded by name and no one asked for a roll call record.

The extra $300, which is not subject to Senate approval and does not apply to senators, brings to $800 the stationery fund for each House member this year and to $1,500 the total for the 81st Congress.

In the two years of the 79th congress House members got $1,650 for stationery, while in the 80th they received $1,300.

The stationery allowance is in addition to the annual tax free $2,500 expense allowance each member receives.

Chairman Norton (D-NJ) of the House administration committee handled the stationery allowance bill and said the increase was justified because the war has "increased immensely" the paper work members of congress must do.

Favored Flower

The yucca became the state flower of New Mexico by legislative action on March 14, 1927, after a poll of the state's school children showed strong favoritism toward the spiked blossom.

Ernie Young's 1950 Revue Now Showing

The Show Will Be At The Fair Until Saturday Night

Appearing nightly with the State Fair since Tuesday and through Saturday is the Ernie Young Revue, which has been engaged at the fair for the past several seasons.

Among the regular acts which make up the revue such as the chorus lines, the dog stunts and the aerial, artists new numbers have been added to the program this year including the Wilnows, a aerial comedy act, a unicycle act and a new singing male trio, the Songsmiths.

Comments from the Tuesday night audience brought favorable comment on the last group especially as they have toured the mid-west recently and were known to many of the spectators.

Vocal Group Is Featured

The Songsmiths, who took their name from their leader, David Smith, are vocal recording artists for the Rondo Recording Co., of Chicago, which is an affiliate of the RCA Victor Recording Co., and are composed of David Smith, baritone, Roy Ballard, tenor and Don Needham, bass. Their newest record which was released in June will soon be on sale in local record shops the title of which is "Ida" and "Old Injun Trail."

This trio which apears in the ninth spot on the revue was formerly associated with the Judy Canova Show and more recently have toured the mid-west making several appearances in St. Louis.

They specialize in show tunes and their repertoire includes a medley from "Show Boat."

The trio started out in New York several years ago and after appearing throughout the country one of the original members left them and it was at this time that Needham joined them.

All Three Are Single

All of the members of the trio are single and before joining together for the songmasters they all had previous singing careers. Smith the leader of the group worked before he organized the group with Twentieth Century Fox and MGM movie studios. And through these contacts he was associated with the Hollywood Show Case with Hedda Hopper and appeared in the Civic Opera Company in "Show Boat" and "Sally."

Roy Ballard before his contact with the Songsmiths was a featured soloist with the house orchestra at the Hotel Statler in Cleveland and later went to New York where he appeared in the Shubert revival of "Robin Hood" and with the New York Opera Company's production of "La Vie Parisinne."

The last member of the trio Don Needham before joining the group had several singing roles on stage with choral groups and quartets.

After their special engagement with the Missouri State Fair the trio will join another Ernie Young revue and their next appearance will be in Manetua, Wis.

Exposure to sunlight results in the formation of vitamin D in the body, but the best natural source is the liver of salt water fish, especially cod and halibut.

Sgt. Son Outranks His Pfc Father

FORT LEONARD WOOD, Mo., Aug. 24—(AP)—John C. Benward, Webb City, Mo., can tell his father to "button up that pocket flap", and get away with it.

Benward is a sergeant in company B, 135th tank battalion, and his father is a private, first class, in the same company, now on maneuvers here with the 35th division, National Guard.

Young Benward joined the unit a little over a year ago. His father joined just a week before the company came to camp here.

State Fair Awards

Home Economics Department

Household Science Division (Foods) Awards

A good garden year and plenty of home prepared foods was reflected in the Home Economics building. The 1950 displays had all ribbons tied for what promises to be an all time record day in attendance for Missouri State Fairs on the opening Sunday. Mrs. P. L. Strole, Sedalia, superintendent for the past five years stated that there were more new exhibitors this year than the past. Her assistant, Mrs. C. V. Jones, also of Sedalia, remarked that many of the exhibitors of 1950 were young people.

Mrs. R. A. Lusk, route 1, Mexico, Mo., and Mrs. George Seiberling, route 2, Chillicothe, Mo., judged the show and commented on it's splendid organization and attractive appearance for the thousands of State Fair visitors who all visit this centrally located popular building which houses both the foods and needle craft divisions.

Both judges commented on the whole-wheat displays and cinnamon rolls which they pronounced the best they had seen in many years.

Fifty entries of blackberry jelly and forty-four cakes of home made soap, angel food cakes and pastries were outstanding for the 1950 show. Awards follow:

Malik's U. N. Mission Will End August 31

By Tom McNamara

WASHINGTON.—Look for Jacob Malik, Soviet delegate to the United Nations Security Council, to be recalled to Moscow right after his term as president of the council expires on August 31.

Insiders say that Malik's mission to the U.N. ended with our smashing victories in the Changyong area last week, which wrecked the "timetable" the Russians have been using in Korea and at Lake Success.

This secret timetable, we have learned, called for Communist capture of the whole of Korea by August 15. Later, the deadline for driving all U.N. forces from Korea was changed to September 1.

Meantime, Malik's mission at Lake Success was to press for a Soviet-dictated peace treaty for Korea when the final blow was struck. As part of the bargain, Russia also would demand recognition of Communist China by the U.N. and the ousting of Chiang's representatives.

However, now that the tide of battle has turned and we are in Korea to stay, Malik's usefulness at Lake Success has ended. He will undoubtedly be recalled to Moscow and the inside betting is that he won't return.

Washington Pipeline

It costs the taxpayers about $75,000 a day to keep Congress in business. . . . Despite all you read about Communist spying in the United States, inside fact is that our intelligence on Russia far surpasses what they know about us. The Pentagon, for instance, knows the exact location of every war plant—even the small ones—behind the Iron Curtain. We even know the number of freight cars Russia has on hand and under construction. . . . A little-known government official, Nat Keith, director of the government's slum-clearance program, is doing an A-1 job cleaning out big city tenement areas—the most vulnerable death traps in a bomb attack. . . . Rep. Manny Celler's monopoly committee will begin probing patent conspiracies by certain big war contractors. . . . Capitol reporters have decided that the term "pork barrel" doesn't do justice to the big, one-package appropriation of $27,000,000,000 for domestic spending. Reporters call it the "silo" bill. . . . Waiters in the house restaurant —where Congressmen eat—still are paid the pitiful wage of $27 a week. Also, though most of these faithful employees of Congress have families, they are not covered by social security. What's more, they are not entitled to sick leave like other government employees.

Plain President

When Rep. Clement Zablocki of Wisconsin introduced a colleague, former Federal Judge McMahon of Wauwatosa, to President Truman the other day, McMahon reported that he had now shaken hands with every U.S. chief executive since McKinley.

"I should be used to it," he added, "but I'm always awed on occasions like this."

"Well, now you are convinced that I am just like any other ordinary man," grinned Truman. "A president has no right to think himself better than the millions of people who elect him—any one of whom might be in his place."

Annexing Poland

Three Polish diplomats who recently quit the Polish embassy in Washington and begged asylum in the United States have warned the State Department that Russia plans to annex Poland formally within a year. This will be done, the Poles revealed, by staging mass demonstrations and holding a mock plebiscite. . . . Pentagon generals believe the mass B-29 raid on North Korean troops was a tactical blunder. The raid stunned the North Koreans, but the Americans failed to follow up with a swift infantry attack. . . . The Communist Daily Worker has ordered its reporters to "race angle" all their stories on the Korean war. However, the Negro magazine, "Ebony," will declare in a forthcoming issue: "Today's conflict is no more a 'war of color' than was the last one when the Communists fought with us, not against us. It is a battle between two political concepts in which color is not involved." . . . The Communists beat the propaganda drums about segregation, but live under a rigid caste system themselves. Inside the Soviet-controlled embassies in Washington, non-Communists aren't allowed to eat at the same table with Communists. In fact, Russian employees aren't even permitted to speak to sattellite employees, except for a few trusted diplomats on the top level. . . . Ever since the Russian school teacher, Oksana Kasenkina, leaped to freedom from the Soviet consulate in New York City, all Russian children over 10 years old have been shipped back to Russia for schooling.

Live Congressman

Story behind House whip Percy Priest's blast at Secretaries Dean Acheson and Louis Johnson —which drew a hot counterblast from the President—is that Priest was under terrific pressure from veterans' groups to tee off on the cabinet members.

On his return to Washington, following renomination in the Tennessee primary, colleagues asked the former Nashville Tennessean reporter why he had stuck his neck out for a White House rebuke.

"It's very simple," grinned Priest. "I'd just rather be a live Congressman than a dead whip."

NOTE—Speaker Sam Rayburn and House majority leader John McCormack have assured Priest that he will continue to be a "live" whip, No. 3 job in the House Democratic ranks.

Small-Business Runaround

While the Defense Department is paying lip service to small business, little companies still get the runaround when contracts are ladled out.

For example, here is what happened to one little outfit, J. H. Phipps Lumber Co. of Fayetteville, Ark., which wanted to make truck bows for the Army:

Phipps tried to submit a bid through the Detroit arsenal, but couldn't even get the specifications needed for estimating the cost. The Detroit arsenal explained that Chrysler Corporation had all the blueprints containing the specifications. When Phipps asked to see them, Chrysler Corporation refused.

In other words, though the Army theoretically invited competitive bids, it was impossible for any company to bid on the truck bows except by grace of the Chrysler Corporation.

How to Win Moscow

It is heartening to know that in these topsy-turvy times there are men in Congress who believe we can still make peace with the common people of Russia and her satellites by bombarding them with what General Ike Eisenhower calls the greatest weapon in the world—the truth.

Other advocates of this are Sen. William Benton of Connecticut, the former State Department official, and his counterpart in the House of Representatives — intelligent young Congressman Foster Furcolo of Massachusetts.

Furcolo's own idea is what he calls a "truth through youth" plan—sending a delegation of our young people on a good-will tour of Communist-dominated countries and inviting similar groups from Iron Curtain countries to tour the United States.

"But I am for anything that will help spread truth and understanding behind the Iron Curtain, whether it be propaganda balloons or dropping soap, razor blades and other American products, with 'people-to-people' friendship messages attached to them," says Furcolo.

"Who can say such ideas won't work until we try them? The cost is infinitesimal to what another major war would cost in blood and dollars. And the best way to prevent war, while there's still time, is to get busy and start fighting lies with truth."

Visitors From Abroad Point up Success of 'Big Lie' Propaganda

By Walter Parkes

Russia's most potent weapon in its long-range war to crush democracy throughout the world and replace it with a dictatorship of world communism is neither its overwhelming military strength, its atom bomb, nor its geographical position. It is the BIG LIE.

It is the same weapon devised and used so successfully by Nazi Propaganda Minister Joseph Goebbels, but greatly refined and given vaster currency because Stalin has at his command not only Moscow's own propaganda experts, but those in satellite countries plus thousands of secret agents and credulous dupes within all non-communist nations.

The Big Lie's success depends upon one thing and one thing only—constant, never-ending, hammering repetition. If no contradictory voice is raised, so much the better.

How successful the Red propagandists have been with this is pointed up by a recent discussion with members of a group of 10 Austrian journalists now touring this country under the auspices of the Rockefeller Foundation, the University of Missouri School of Journalism and the State Department. These men, outstanding in their field, are highly experienced, with more than average education and cultural background.

Yet even they came here with certain ideas about the United States that puzzle an American. For instance, during their week's stay in Cleveland, they watched operation in a large brokerage house. Some of them were amazed to learn that our big corporations have literally millions of stockholders, most of them just ordinary people in workaday jobs like themselves.

As one of them put it: "I always thought that a few big shots—15 or 20, maybe—held all the stock and grew rich on the profits. Well —you see—we get so much of that Communist propaganda."

The visitors also were impressed with the degree of culture they found in this country. One of them wistfully spoke of the fact that there are few American communities too small to have a public library. One suspects here the hammering of another Communist Big Lie—that Americans are barbarians, concerned with nothing more intellectual than grubbing for a dollar. The visitors had other misconceptions.

It makes an American wonder how naive a grown man can be. But these Austrians are not naive—far from it. They just heard too much of the Big Lie and not enough of the Big Truth. And if they swallow the Big Lie, how easily must it go down with the average European man-in-the-street and the ignorant peasant?

No, it is we Americans who are naive. We are naive enough to believe that because we, ourselves, know how things are here, everybody else in the world must know it, too. We are naive enough never to wonder why the rest of the world doesn't know the truth, without stopping to reflect that the most insistent informants it has are Moscow-serving propagandists.

Experience with these Austrian newspapermen makes one realize that the Russians can give us cards and spades in propaganda and walk off with the pot. It underscores once again the vital necessity of expanding and improving our propaganda agencies to the point where the Big Truth will paint the picture of American-style Democracy and the Big Lie will be retired from Russia's arsenal as an obsolete weapon.

RELAXED RECEPTIVITY

We have studied a ladder for prayer. But ladders are of small use if they suggest that all ladder-climbing must suggest, namely, tense strenuousness. You will not go far in prayer if you go in the spirit of tense strenuousness, as though you were going to wring out of the universe the object of your prayer. The spirit of prayer should be the opposite — alert passivity. Alert passivity means that while your spiritual, mental, and physical sensibilities are awake and alert to God, yet they are also relaxed and receptive. I say relaxed and receptive, but the two attitudes are really one, for relaxation is receptivity.

And yet there are two sides to real praying. If we are only relaxed we are weak. Dr. Alexis Carrel says: "Lowering of the blood pressure is also dangerous. Brain and other organs demand a certain tension of the blood." That is the alert side. But the brain and other organs demand a certain relaxation to be at their best. Prayer puts relaxation and tension together, and is therefore the perfect instrument of human well-being.

Since prayer has been presented so strongly by so many as strenuous alertness, the parable of the importunate widow being the special text of this strenuousness, we must stress the relaxed attitude in prayer. A stenographer who is all tense and keyed-up and anxious to be a good stenographer will probably be a very poor one, for the anxiety literally ties up the energies. "As they tense, two things happen: blood flows through their fibers less easily, and the taut muscle as a whole presses or strains upon some bone, sinew, vein or artery, thereby lowering all activities in such, at least for a moment. But each lowering of activity tends to block the free flow of the healing secretions and the blood." (Walter B. Pitkin, Your Life, January, 1941.) Relaxation is receptivity, which in turn becomes resource. In the relaxed attitude you are allowing God to get to you; it is an invitation to come; you wait expectantly.

Gracious Father, I come to Thee to learn to receive. In Thy presence I let down all the bars of my being and let Thee into every fiber, every brain cell, every cranny of my being. As the blood courses through my body, cleansing and healing and restoring and empowering, so Thou art going through me —body, mind, and soul—cleansing, healing, restoring, empowering. I thank Thee. Amen.

Q. and A.

You and the Service

By DOUGLAS LARSEN
NEA Staff Correspondent

(EDITOR'S NOTE: Here's the first of a question-and-answer series that tells how the Korean war affects reservists, veterans, draft-age man, and anyone likely to be called to service. The author, a member of the Washington staff of NEA Service, conducted a widely-read column on "Your GI Rights" in the months following World War II. He will answer questions only in this space, not by mail.

WASHINGTON — (NEA) —Q. They say they aren't going to take any Marine officers back who are over the rank of captain. Does that mean if you go back as captain there is no chance of getting promoted?

A. No, it doesn't mean that at all. Promotions will continue as usual.

Q. Are former members of the Merchant Marine exempt from the draft?

A. No. The law does not contain provisions for their exemptions nor does it give authority for their deferment by regulation.

Q. I was a corporal when I was discharged from the Army. Since then I've graduated from high school. Is there any chance of getting in officers candidate school if I'm called back to active duty?

A. Yes. The services are still giving their enlisted men a chance to qualify for commissions.

Q. Will men taking R O T C courses in college be deferred for longer than a year?

A. Generally, men who were in the advanced course, senior, division, ROTC, may be deferred by their local boards. That also applies to the Air ROTC and the Naval ROTC. But they may be ordered to active duty after their graduation. The Secretary of Defense also is authorized to designate other ROTC students for deferment if they sign written agreements to serve on active duty for a period of two years after graduation.

Q. How does a man in the National Guard go about getting a postponement of his report for active duty?

A. Make your request to the Adjutant General of your state.

Q. Are any conscientious objector camps being set up?

A. No.

THE STORY: Spunky, the pet dog of Jimmy Joe Ferris, has just died of poison. "Doc" Fortson, village pharmacist, who is telling the story, stays at the Ferris home and has just learned that another dog in town has been poisoned and the suspect in the case is Roger Blessen, a postman who is afraid of dogs. Fortson doesn't believe this, because while Roger is nervous and high strung, he's a nice young man. Besides, Betsy Sharpe, Fortson's cashier, is in love with Roger.

* * *

IV

I HADN'T heard about Mrs. Simpson's pug being poisoned, but I'd just got back from my vacation and hadn't heard all the news. Betsy looked at me and nodded miserably.

"It's all over town that Roger Blessen poisoned the dog," she said over Jimmy Joe's head. "But Roger wouldn't do a think like that, Doc! That wheezy old pug was almost like a child to old lady Simpson."

I couldn't think of a single useful thing any of us could do about two dead dogs. Jimmy Joe kept sobbing and we all stood there feeling uncomfortable. Then Tom told Betsy to keep her chin up and everything would work out and went away with Greta.

Betsy repaired her face and went back to the cash register and I washed off Jimmy Joe's tear streaks and took him and the limp body of his pet back home. We gave Spunky a funeral with all the flourishes I could think of. Then I got the boy talking about the new puppies out at Doc Doan's—he runs a small kennel, too—until he was almost cheerful again. Before I left him, we had arranged to pick out a Spunky the Second the very next day.

Afterward I went back to Main Street to drop my laundry and to restock the cheese and stuff I like for night snacks. I met Miss Myra Sharpe in the super market, but she was in a rush and went by me with no more than a nod. I thought she probably had a company dinner coming up, for she had fancy groceries and a box of candy in her basket and the butcher was handing her some packages.

I was getting my change when a familiar, fluting voice caroled at me. "Why, hel-lo, Doc! I didn't know you were back from your vacation. I've certainly missed you!"

It was Nurse Barwick from the hospital, a cute, sassy youngster. I carry a torch for Betsy Sharpe, of course, but because she doesn't even notice that I burned for her, it gives my self-esteem a nice boost to know that there are others who seem to notice me. Not that I'd ever get serious about this angel of mercy, but I liked her.

"Missed me?" I told her. "You mean, you missed the steaks I feed you on our businessmen's blue plate."

Sally set a hand on a nicely rounded hip and demanded, "Do I look like I've lost weight?"

I looked her over and shook my head. "Who's been feeding you while I was gone? Never mind, we've got corned beef and mustard sauce on the counter lunch this noon. I'll buy."

Sally squealed with delight and squeezed my arm as she rushed through the market turnstyle to join me. Even though she's nothing like Betsy, I found it was definitely nice to have her chirruping along beside me.

* * *

SOON we were tucking in the food—which is pretty good at my drug store even if I do say it. I claim I have the only eating place in the state that doesn't serve up a mess of greasy French fries with every order. Instead, my cook can turn out a wonderful baked potato with special country butter pats. During the repast, I asked Sally what was new.

Sally tipped an eyebrow at me. "Your girl friend's boy friend is in the soup. Right up to here." She ran a forefinger across her throat.

"I was only gone two weeks," I said. "What could Roger Blessen get into in that length of time? I heard about the old lady Simpson pug dog deal this morning. But that's just talk. You mean there's more?"

"It couldn't have been easy," Sally answered my first question. "And there's plenty more. You know how Dr. Prentiss likes to hunt? And he always has two or three bird dogs out at his place at the end of Elm Street. Well, just two or three days after you left, Doc"—Sally batted her eyelashes at me—"about the time I really began to miss you—"

"About the time you began to get hungry, you mean," I told her.

"I saw the whole thing myself. I was off duty and I was taking a walk. Anyway a new dog that Dr. Prentiss had, jumped the fence and ran up to Roger and sniffed at him. Roger lost his head and kicked at the dog and naturally the dog bit him. Dr. Prentiss was home and he came rushing out and insisted on dressing Roger's bite and he tried to smooth things over.

"But a day or two later all three of Dr. Prentiss's dogs were dead from poison! So who would you think did it? Doctor can't do anything about his dogs, for Roger could sue him over the dog bite, but he's plenty hostile and you can't really blame him. Those dogs were valuable—two or three hundred dollars apiece."

"They can't actually pin the poisonings on Roger, can they? Are people saying—"

* * *

SALLY cut a piece of corned beef and avoided my eyes.

"People are saying that Betsy is slipping Roger a few ounces of poison—strychnine, no less—from your prescription counter."

"That's silly," I snapped.

"You only asked me," Sally said doggedly, "what people are saying. And I told you. And that's not all they're saying, either."

"What else?" I asked. I was getting madder by the minute.

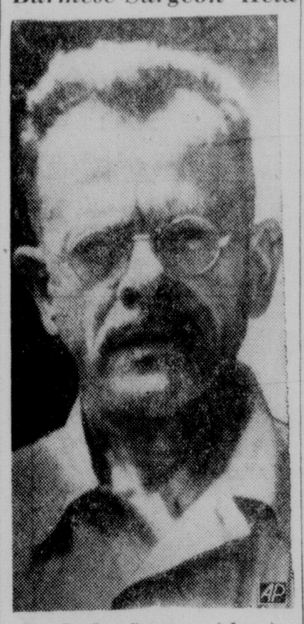

"They're whispering that the poisoning isn't going to end with dogs," said Sally.

'Poison Pen' Letter Taunts Bereaved Parents

A few days after receiving official notice of their son's death in the Korea fighting, Mr. and Mrs. Joseph Kabalen of Cleveland, Ohio, received the note shown below. It says: "Mr. & Mrs. Joseph Kabalen: We want to let you know we are very happy that all Wall Street tools get killed in Korea. Very truly, The American Working People." Mr. Kabalen's anguished face, at right, shows how much the poison penned letter has added to his heartbreak. The postmark on the envelope showed that the note had been mailed only a few short hours after the story of Sgt. Kabalen's heoric death appeared in local newspapers.

Mr + Mrs. Joseph Kabalen:

We want to let you know we are very happy that all Wall Street tools got killed in Korea.

very truly

Something To Remember

Capt. A. M. Knier, army chaplain from Kiel, Wis., administers last rites to some of the 32 American soldiers found executed with hands tied on Hill 303, Waegwan, South Korea. (Exclusive Radio-Telephoto by NEA-Acme staff correspondent Stanley Tretick)

DESIGNER DETAINED—Elsa Schiaparelli, world-famed Parisian fashion designer, was detained by police at Nice, France, as she was about to fly to Tunis in North Africa, when certain jewels, which she had reported stolen earlier, were discovered in her baggage. Undeclared American currency was also found hidden between the pages of a book among her belongings. "The whole thing was an oversight," she protested.

Spelled backwards, radar is still radar.

Same, Yet Different

The salmon and the eel both belong to the fish family, yet, at spawning time, the salmon travels thousands of miles to reach fresh water, while the eel travels thousands of miles to reach the ocean.

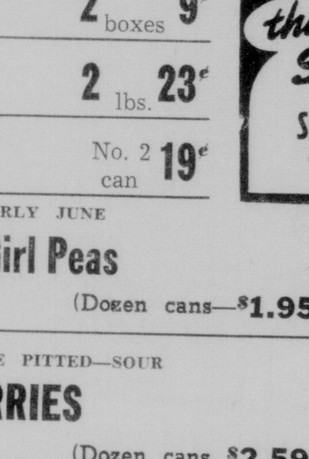

Wears Eggs As Hat

The male kurtus fish fastens the eggs laid by the female to a bony hook on its forehead, where they remain until hatched. This fish is found in the Pacific and Indian oceans.

Contrary to prevalent belief, you don't have to sleep on your back to snore.

Lincoln

Mrs. Herbert Hansen

Mr. and Mrs. Leo Hare and family, of Lincoln, Mr. and Mrs. J. W. Stanard and family, of Sedalia, and Mr. and Mrs. Ed Williams and son, Donald, and Mr. and Mrs. Gilbert Hare, all of St. Louis, enjoyed a picnic supper at Gravois Mills Tueday evening.

Mr. and Mr. A. M. Labahn and son, Ray, entertained with a dinner at their home last Tuesday. Guests were Mr. and Mrs. Oren Moor and daughter, Peggy Dee, Mr. and Mrs. S. O. Stratton and Mr. and Mrs. Earl Moor and family, of Osawatomie, Kas.

Mrs. J. O. Love, accompanied her daughter, Mrs. Tommie Martin, and Mr. Martin, of Fairfield, to Kansas City, where they visited Mr. Love, who is a patient at a hospital there for the past two weeks. His condition is improved and he expects to return to his home in about a week.

Mr. and Mrs. Bob Butler and children entertained with a dinner at their home Sunday honoring the birthday anniversaries of Mrs. Butler's father, Joe Kelb, whose birthday anniversary will be August 19 and her own anniversary, which was August 12. Guests were Mr. and Mrs. Joe Kelb, Mrs. Ethel Brown, Phoebe and J. L. and Mr. and Mrs. E. B. Kinkead and daughter, Judy, of Warsaw.

A son was born to Mr. and Mrs. James Chaney Sunday afternoon, August 6, at 1:30 o'clock at the hospital in Windsor. The baby weighed five pounds and has been given the name of James Dale. Mrs. Chaney was formerly Barbara Bryan, daughter of Mr. and Mrs. Lyle Bryan of Lincoln.

Guests at the home of Mr. and Mrs. C. E. Reid Monday were Mrs. August Keseman, Mr. and Mrs. Donald Hayden and family, of Tulsa, Okla., and Mr. and Mrs. John Dick, of Warrensburg.

Among those here from a distance to attend the funeral services held for Mrs. A. C. Kreisel, who died at her home here Tuesday morning, August 8, were: Mr. and Mrs. James Mantonya and family, Mr. and Mrs. Charles Mantonya and family, Mrs. Dave Edmonson, Mr. and Mrs. H. H. Kreisel, Vic Kreisel and Mrs. Pearl Doll and two daughters, all of Kansas City; and Mr. and Mrs. Chester Montanya and family, Mr. and Mrs. John Montanya and family, all of Clinton; Mr. and Mrs. Herbert Keseman, of Sedalia.

Mr. and Mrs. August Keseman attended the Dick Dundas family reunion which was held at the park in Windsor Sunday.

Mr. and Mrs. Ulrus Davis, of Gravity, Ia., arrived last week to be with Mr. Davis' father, W. H. Davis, who is quite ill at his home here. Other guests at the Davis home Sunday afternoon were his children and families, Mr. and Mrs. Willie Davis and daughter, Miss Marjorie, of Ionia, Mr. and Mrs. George Suhl, Mr. and Mrs. Lee Suhl and son, Robin Gary, Mr. and Mrs. Dick Hughes and son, Mr. and Mrs. R. C. Davis and two children, Mrs. Wendell Poague of Kansas City, and George Davis, of Chicago.

Dr. Charley Stratton, of Lowry City, and his daughter, Mrs. Virginia Lindeier, of Oak Grove, Tenn., were guests of Dr. and Mrs. S. O. Stratton Wednesday afternoon.

Mrs. Guy Nease, of Odess, Tex., arrived here by plane Saturday to be with her sister, Mrs. Ann Wisdom Humphrey, who entered Research hospital in Kansas City Friday evening for medical treatment. Mr. Neas and Kenneth Hare, also of Odessa, arrived here Sunday.

Mr. and Mrs. Jimmie Trimble and daughter, Sandra, of Kansas City, were guests Friday night at the home of Mr. and Mrs. Bob Butler and children.

Shirley Lynch spent last week in Sedalia as the guest at the home of her uncle and aunt, Mr. and Mrs. Ross Mothersbaugh.

Mrs. Wendel Poague, of Kansas City, spent last week as a guest at the homes of relatives here.

George Roark, a mechanic at the Thomas garage, who has been ill with typhoid fever, is improved.

Son, born to Mr. and Mrs. Herbert Leo Kalb, of Springfield, Monday night, August 14, at 11:00 o'clock at the Bothwell hospital. The baby weighed nine pounds, four ounces and has been named Royce Dean.

STILL ROLLING ALONG—Making good his promise to skate on his 82nd birthday, noted health culturist and publisher Bernarr MacFadden takes a spin on the Dansville, N. Y., rink. Three-and-one-half-year-old Audrea Purdy is his pretty companion.

Baked Chicken Breasts

Ingredients: 1 frying chicken (about 3½ pounds), ½ teaspoon kitchen bouquet, ½ teaspoon salt, dash pepper, ⅛ teaspoon marjoram, 1 teaspoon fat, 2 slices cooked smoked boneless pork butt or ham (about ¼-inch thick), 3 tablespoons butter or margarine, 1 teaspoon finely grated onion, 3 tablespoons flour, 2 teaspoons salt, ¼ teaspoon dry mustard, 1 cup milk, 1 three-ounce can sliced broiled mushrooms, ¼ teaspoon Worcestershire sauce.

Method: Have meat dealer cut breast from chcken in two fillets and cut rest of chicken in serving-size pieces. Place chicken breasts in a bowl. (Reserve remaining chicken for another meal.) Sprinkle breasts with kitchen bouquet, ½ teaspoon salt, pepper, and marjoram. Toss lightly to coast evenly. Melt 1 tablespoon fat in skillet. Lightly brown ham and remove to shallow baking dish, about 10x6 inches. Place chicken breasts in pan and lightly brown on both sides. Place chicken on each slice of ham. Melt butter or margarine in skillet. Add onion and stir a few seconds over moderate heat. Stir in flour, ½ teaspoon salt and mustard. Add milk, contents of can of mushrooms and Worcestershire. Cook, stirring constantly, until sauce thickens and boils. Pour sauce over chicken. Cover baking dish, using aluminum foil if pan has no cover. Bake in moderate (350° F.) oven until chicken is tender, about 1 hour. Serve immediately. Makes 2 servings.

COURTESY CARD—The little town of Wytheville, Va. (pop. 5500), has set some kind of a precedent by erecting the billboard pictured above on its outskirts. This summer, Wytheville, county seat of Wythe County, suffered the worst polio epidemic in the history of the nation. Noted for its scenery, climate and vacation facilities, Wythe County was visited by thousands of tourists from all over the U. S. Wythevillians, while glad to have the visitors, did not want to take any chances on their contracting polio. Hence the sign, asking tourists to include the town in the vacation plans for next year. Health authorities state that, following this year's epidemic, Wytheville will be one of the most polio-free areas next year.

(Recipe for Starred Dish Follows)

Blueberry Torte

Ingredients: ¾ cup all-purpose flour (stir to aerate before measuring), ¾ teaspoon double-acting baking powder, ½ teaspoon cinnamon, ¼ cup butter, ½ cup sugar, 1 egg, 1 ¼ cups large firm cultivated blueberries (picked over, washed and drained well).

Method: Put flour, baking powder, and cinnamon into sifter. Cream butter; add sugar and cream thoroughly. If electric mixer is used beat in egg until mixture becomes very fluffy and pale-colored; if not, beat egg with rotary hand beater until thick and then mix well with butter and sugar. Sift in flour mixture all at once; beat or stir in slowly until well blended. Stir in blueberries lightly. Turn into lightly buttered 7-inch square pan (about 1½ inches deep); bake in slow (325F°) oven 45 minutes or until done. Cool slightly, then cut in squares, lift each square carefully from pan with wide spatula, and serve warm with whipped cream. Makes 6 servings.

Hadacol Helps Relieve St. Louis Man's Leg Pains

He Suffered Deficiencies of Vitamins B1, B2, Iron and Niacin

Elmer Prater, 3619 North Broadway, St. Louis, Mo., having tended bar for a good many years, says a man has to work mighty hard these days to make himself a passable living. Gone are the days when you could buy a good lunch for 15c. But he says the good old days of healthful living are today. That is because he found out how worthwhile life really can be. Gone are his days of suffering, thanks to HADACOL. Mr. Prater has been suffering a deficiency of Vitamins B1, B2, Niacin, and Iron.

Read Mr. Prater's statement: "I had been bothered many years with neuritis pains in my legs—the pain was so bad I couldn't sleep at night. My appetite was way off, too! I just couldn't seem to get any enjoyment out of food and what I did eat didn't agree with me at all. I had just about given up hope when my brother and sister persuaded me to take HADACOL. What did HADACOL do for me? . . . Why, after taking HADACOL for only 2 weeks I was able to go back to work. You think I don't rate HADACOL First Place? . . . I recommend HADACOL every time."

Wonderful for Both Old and Young!

This new HADACOL is simply wonderful for men, women and children of all ages who are sick and ailing because their systems are lacking these important Vitamins B1, B2, Iron, and Niacin.

The important Vitamins and Minerals in HADACOL come to you in **special liquid form** so that they are more quickly absorbed and assimilated in the blood stream, ready to go right to work at once. HADACOL even builds up the red blood cells (when Iron is needed) to carry these precious elements to every part of your body — to your kidneys, lungs, heart, liver — even to the hair, nails and eyes!

Relieves Cause of Your Sickness from Such Deficiencies

HADACOL now makes it possible for you to relieve the acid cause of neuritis pains and a general run-down nervous condition when due to deficiencies of Vitamins B1, B2, Iron and Niacin. So why be satisfied with symptomatic relief when you can now relieve the cause with HADACOL.

There Should Be No Doubt

After reading Mr. Prater's wonderful experience with HADACOL—how can you doubt that this great product will help you if your system is lacking in Vitamins B1, B2, Iron, and Niacin?

What HADACOL did for Mr. Prater, it can do for you if you're suffering neuritis aches and pains, or other troubles due to such deficiencies.

So what are you waiting for? Don't continue to suffer — don't continue to be miserable!

Don't Be Satisfied With Symptomatic Relief!

HADACOL is **not** a quick-acting pill which gives symptomatic relief — rather it relieves the real cause of your pains and aches due to such deficiencies. And continued use of HADACOL helps prevent such agonizing pains from coming back. That's the kind of product you want—that's the kind you should buy and that's the kind you should start using NOW!

HADACOL costs only $1.25 for a trial-size bottle. Large family or hospital size, $3.50. It is sold on a strict money-back guarantee. At any drugstore.
